## Chapter 2

## Recording Business Transactions

## Questions

1. The basic summary device of accounting is the T-account. It resembles the letter T , and its left side is called the debit side and its right side the credit side.
2. The statement is false because debit means left and credit means right. Debits and credits are used to record increases and decreases in accounts, so debits can be increases or decreases depending on the type of account involved and likewise for credits.
3. Examples:
a. A debit to an asset account indicates an increase in the asset.
b. To record a decrease in a liability, the accountant should record a debit.
c. Debit all asset accounts to record increases in them.
d. The accountant should debit Cash to record a receipt of cash.
e. The debit side of an account is the left side.
f. It is customary to record the debit side of a journal entry before recording the credit side of the entry.
4. The three basic types of accounts are ASSETS, LIABILITIES, and OWNER'S EQUITY. Two additional types of accounts are REVENUES and EXPENSES. They are part of owner's equity; revenues increase owner's equity and expenses decrease owner's equity.
5. The dual effects of an owner's investment in her business are (1) an increase in the entity's cash and (2) an increase in the owner's equity.
6. Business Transaction $\rightarrow$ Entry in $\rightarrow \quad$ Posting to $\rightarrow$ Trial Creates Source Document $\rightarrow$ Journal $\rightarrow \quad$ Ledger $\rightarrow$ Balance
7. The normal balance of an account is the side of the account-debit or creditthat records increases. Also, an account's normal balance is the side of the account that usually has the account's balance.
8. Account Type Assets

Normal Balance
Liabilities
Debit
Owner’s equity
Credit

Revenues
Credit
Expenses
Credit
Debit
9. Posting transfers amounts from the journal to the ledger. This is important because the transaction entries in the journal do not accumulate all the information related to each account. The accounts in the ledger hold that
information. Therefore, the transfer of data to the accounts in the ledger-that is, posting from the journal to the ledger-makes it possible to determine the balance in each account. Posting comes after journalizing.
10.

| $\pm$ | a. | Investment by owner | $\underline{0}$ | e. | Cash payment on account |
| :--- | :--- | :--- | :--- | :--- | :--- |
| $\pm$ | b. | Invoice customer for services | $\underline{\bar{\prime}}$ | f. | Withdrawal by owner |
| $\underline{0}$ | c. | Purchase of supplies on credit | $\underline{0}$ | g. | Borrowing money on a note payable |
| $\bar{\prime}$ | d. | Pay expenses | $\underline{ \pm}$ | h. | Sale of services on account |

11. Posting's four steps are (1) copy the date of a transaction from the journal to the ledger, (2) copy the journal page number from the journal to the ledger, (3) copy (post) the dollar amounts of the debit and the credit from the journal to the ledger, and (4) copy the account numbers from the ledger back to the journal to indicate that the transaction amount has been posted to the ledger. Step 3, transferring the transaction amount to the account, is the fundamental purpose of posting.
12. Cash Jane East, Capital Accounts Receivable Sales Revenue Note Payable

## Salary Expense

13. "Accounts Payable has a credit balance of $\$ 1,700$ " means that the entity owes $\$ 1,700$ to its creditors on a debt that is not evidenced by a formal note payable.
14. The two business transactions are (1) the cleaners providing laundry service and earning revenue and (2) Baylor's paying cash to Campus Cleaners. The business's earning of the revenue increases the owner's equity in the company, and Baylor's payment of cash increases the business's cash.
15. The ledger is the group of actual accounts in use. The chart of accounts is a list of all the accounts set up in the ledger with their account numbers.
16. Accountants prepare a trial balance to check the accuracy of postings and determine whether the total debits equal the total credits. It is a useful summary of all the accounts and their balances and serves as an early error-detection tool.
17. A compound journal entry is one that affects more than two accounts.
18. This error does not cause the trial balance to be out of balance because both the total debits and the total credits are overstated by the same amount, $\$ 4,500$ ( $\$ 5,000-\$ 500$ ).
19. Collecting cash on account has no effect on total assets because the increase in cash, which increases total assets, is offset by the decrease in accounts receivable, which decreases total assets.
20. Both systems depend on the accuracy of the initial analysis of the transaction and require that the journal entry be recorded correctly. Thereafter, a number of errors could occur in a manual system (such as slides, transpositions, errors in calculating account balances); these errors will affect a manual trial balance. Most computerized systems will not allow you to post a journal entry if it does not balance. Once the journal entry has been correctly recorded, the computerized accounting system performs much the same actions as accountants do in a manual system. These routine tasks are accomplished faster and with less risk of error with a computer. The computer does not recognize debits and credits, only increases and decreases by account type.

## Starters

${ }_{(10 \mathrm{~min})} \mathbf{S}$ 2-1

${ }_{(5 \mathrm{~min} .)} \mathbf{S} \mathbf{2 - 2}$
"The basic summary device in accounting is the account. The left side is called the debit side, and the right side is called the credit side. We record transactions first in a journal. Then we post (copy the data) to the ledger. It is helpful to list all the accounts with their balances on a trial balance."

## ${ }_{(10 \mathrm{~min} .)} \mathbf{S} \mathbf{2 - 3}$

| $\underline{E}$ | 1. | Posting | A. | Record of transactions |
| :--- | :--- | :--- | :--- | :--- |
| $\underline{\mathrm{D}}$ | 2. | Normal balance | B. | Always an asset |
| $\underline{\mathrm{G}}$ | 3. | Payable | C. | Right side of an account |
| $\underline{\mathrm{A}}$ | 4. | Journal | D. | Side of an account where <br> increases are recorded |
| $\underline{B}$ | 5. | Receivable | E. | Copying data from the <br> journal to the ledger |
| $\underline{\mathrm{J}}$ | 6. | Capital | F. | Increasing equity from <br> providing goods and |
| $\underline{\text { C }}$ | 7. | Credit | G. | Always a liability |
| $\underline{\mathrm{F}}$ | 8. | Revenue | H. | Revenues - Expenses <br> (where expenses exceed <br> revenue) |
| $\underline{\mathrm{H}}$ | 9. | Net loss | I. | Grouping of accounts |
| $\underline{\mathrm{I}}$ | 10. | Ledger | J. | Owner's equity in the <br> business |

Credits are increases in these types of accounts:

- Liabilities
- Capital
- Revenues

Credits are decreases in these types of accounts:

- Assets
- Withdrawals
- Expenses

Debits are increases in these types of accounts:

- Assets
- Withdrawals
- Expenses

Debits are decreases in these types of accounts:

- Liabilities
- Capital
- Revenues
(5-10 min.) S 2-5

Incorrect Trial Balance

| Ladner Environmental Services <br> Trial Balance <br> April 30, 2010 |  |  |  |
| :---: | :---: | :---: | :---: |
| ACCOUNT NUMBER | ACCOUNT | DEBIT | CREDIT |
| 1100 | Cash | \$214,000 |  |
| 1200 | Accounts receivable | 4,000 |  |
| 1400 | Office supplies | 5,000 |  |
| 1900 | Land | 50,000 |  |
| 2100 | Accounts payable |  | \$ 1,000 |
| 3000 | John Ladner, capital | 250,000* |  |
| 3100 | John Ladner, withdrawals | 5,500 |  |
| 4000 | Service revenue |  | 35,000 |
| 5100 | Rent expense | 3,000 |  |
| 5200 | Salary expense | 3,500 |  |
| 5300 | Utilities expense | 1,000 |  |
|  | Total | \$536,000 | \$36,000 |

*Incorrect; should be listed as a credit.

To correct this error,

1. Take the difference between total debits and total credits:

$$
\$ 536,000-\$ 36,000=\$ 500,000
$$

2. Divide the error by 2 :
$\$ 500,000 \div 2=\$ 250,000$
3. Locate $\$ 250,000$ on the trial balance. The Capital account should have a credit balance.

| Ladner Environmental Services <br> Trial Balance <br> April 30, 2010 |  |  |  |
| :--- | :--- | ---: | ---: |
| ACCOUNT <br> NUMBER | ACCOUNT | DEBIT | CREDIT |
| 1100 | Cash | $\$ 214,000$ |  |
| 1200 | Accounts receivable | 4,000 |  |
| 1400 | Office supplies | 5,000 |  |
| 1900 | Land | 50,000 |  |
| 2100 | Accounts payable |  | $\$ 1,000$ |
| 3000 | John Ladner, capital |  | 250,000 |
| 3100 | John Ladner, withdrawals | 5,500 |  |
| 4000 | Service revenue |  | 3,000 |
| 5100 | Rent expense | 3,500 |  |
| 5200 | Salary expense | $100^{\star}$ |  |
| 5300 | Utilities expense | $\underline{\underline{\$ 285,100}}$ | $\$ 286,000$ |
|  | Total |  |  |

*Incorrect; should be listed as \$1,000.

To correct this error,

1. Take the difference between total debits and total credits:
$\$ 285,100-\$ 286,000=\$ 900$
2. Divide the error by 9:
$\$ 900 \div 9=\$ 100$
3. Locate $\$ 100$ on the trial balance. Utilities expense, at $\$ 100$, holds the error. Trace the utilities' balance back to the ledger account, which shows the correct amount.

## Exercises

${ }_{(10-15 \mathrm{~min})} \mathbf{E} \mathbf{2 - 1}$
TO: Office Manager
FROM: Student Name
Each time Prairie Tours received cash, accountants recorded the transaction in the journal by debiting the Cash account. Accountants recorded cash payments by making a journal entry that included a credit to Cash. Debits in the journal were posted as debits to the Cash account in the ledger and credits were posted as credits. At the end of the period, accountants listed each account, along with its balance, on the trial balance. Cash had a balance of \$57,800.

Instructional Note: Student responses may vary considerably.
${ }_{(10-15 \text { min. })}$ E 2-2

${ }_{(10-15 \text { min. })}$ E 2-3
Req. 1

| Debit | Credit |  |  | Credit |
| :---: | :---: | :---: | :---: | :---: |
| ASSETS | $=$ | LIABILITIES | + | OWNER’S EQUITY |
| $\$ 75,500$ | $=$ | $\$ 46,300$ | + | $\$ 28,500$ |
| $(\$ 31,200+\$ 4,000$ |  |  |  |  |
| $+\$ 300+\$ 40,000)$ |  | $(\$ 1,300+\$ 45,000)$ |  |  |

This accounting equation is out of balance because the complete equity balances are not shown. Net income or loss and withdrawals balances should be included in the equation.

Req. 2

| Credit | Debit |  |  | Net Credit |
| :---: | :--- | :---: | :---: | :---: |
| REVENUES | - | EXPENSES | $=$ | NET INCOME |
| $\$ 7,600$ | - | $\$ 5,100$ | $=$ | $\$ 2,500$ |
|  | $(\$ 400+\$ 1,500+\$ 3,000+\$ 200)$ |  |  |  |

NET INCOME would represent a net credit because revenues (credit amounts) would exceed expenses (debit amounts).

NET LOSS would represent a net debit because expenses (debit amounts) would exceed revenues (credit amounts).

Req. 3
Jim Aylmer withdrew \$1,800 during the month.
Withdrawals are a debit amount.

Req. 4
Increase in owner's equity (credit amount)
Net income \$2,500
Decrease in owner's equity (debit amount) Withdrawals

1,800
Net increase in owner's equity (credit amount) $\quad \underline{\$ 700}$

## Ethical Issue

Is Associated Charities Inc. taking advantage of the bank's generosity or the other users of the charity?

Students who approve of the Associated Charities action can point out that the bank allows Associated Charities to overdraw its cash balance. In this view, Associated Charities is merely using a privilege the bank has granted. Most banks are civic-minded and are relatively generous with charitable organizations.

Students who disapprove may argue that Associated Charities is using the bank's money and presumably incurring interest charges. In this view, Associated Charities should curtail its spending until it has the money to cover its expenditures and maintain a positive balance. Alternatively, Associated Charities could sign a note payable to borrow the needed money. The related interest is the bank's compensation. By incurring this interest, the charity is essentially using future donations to pay the cost.

The bank is the key player in this case. Whether the bank approves or disapproves of the Associated Charities overdrafts is critical to the ethical decision. Approval by the bank turns the overdrafts into an unsecured loan to Associated Charities. Disapproval by the bank would no doubt be communicated to Mr. Glowa.

The other users (volunteers, recipients, donors, etc.) could also lose if the charity ends up in financial trouble.

Steps used to analyze ethical dilemmas:

1. Recognize an ethical situation and the ethical issues involved.
2. Identify and analyze the principal elements in the situation.
3. Identify the alternatives, and weigh the impact of each alternative on various users.

## Problems

## Group A

## ${ }_{(15-30 \mathrm{~min} .)} \mathbf{P} \mathbf{2 - 1} \mathbf{A}$

Dear Friend,
This trial balance lists the accounts of Archer Communications, along with their balances at December 31, 2010. The trial balance is an internal document used by accountants. It is not the same as a balance sheet or an income statement. The balance sheet and the income statement are financial statements used by managers, creditors, and potential investors for decision making.

The fact that the trial balance is in balance does not mean that Archer Communications is a sound company. It merely means that total debits equal total credits in the company ledger. This says nothing about the soundness of the business. To compute Archer Communications' net income or net loss for the current period, subtract total expenses from service revenue. In this instance, Archer Communications earned net income of \$55,000 [sales revenue of $\$ 151,000$ minus total expenses of $\$ 96,000(\$ 4,500+\$ 39,000+$ $\$ 10,500+\$ 42,000)]$.

Instructional Note: Student responses may vary considerably.

## Party Time Amusements Company

## Date Analysis of Transactions

Nov. 1 Given in the problem; not required for Nov. 1 transaction.
1 The expense Rent Expense is increased. Increases in expenses are recorded by debits; therefore, debit Rent Expense.
The asset Cash is decreased. Decreases in assets are recorded by credits; therefore, credit Cash.
2 The asset Land is increased. Increases in assets are recorded by debits; therefore, debit Land.
The asset Cash is decreased. Decreases in assets are recorded by credits; therefore, credit Cash.
5 The asset Cash is increased. Increases in assets are recorded by debits; therefore, debit Cash.
The liability Notes Payable is increased. Increases in liabilities are recorded by credits; therefore, credit Notes Payable.
10 The asset Supplies is increased. Increases in assets are recorded by debits; therefore, debit Supplies.
The liability Accounts Payable is increased. Increases in liabilities are recorded by credits; therefore, credit Accounts Payable.
15 The liability Accounts Payable is decreased. Decreases in liabilities are recorded by debits; therefore, debit Accounts Payable.
The asset Cash is decreased. Decreases in assets are recorded by credits; therefore, credit Cash.
15 The expense Property Tax Expense is increased. Increases in expenses are recorded by debits; therefore, debit Property Tax Expense.
The asset Cash is decreased. Decreases in assets are recorded by credits; therefore, credit Cash.
16 The expense Salary Expense is increased. Increases in expenses are recorded by debits; therefore, debit Salary Expense.
The asset Cash is decreased. Decreases in assets are recorded by credits; therefore, credit Cash.
28 The owner's equity of the business is decreased. Decreases in owner's equity are recorded by debits. Decreases due to withdrawals are debited to the withdrawals account; therefore, debit Darrell Palusky, Withdrawals.
The asset Cash is decreased. Decreases in assets are recorded by credits; therefore, credit Cash.
30 The asset Cash is increased. Increases in assets are recorded by debits; therefore, debit Cash.
The revenue Service Revenue is increased. Increases in revenues are recorded by credits; therefore, credit Service Revenue.

Minter Landscape Consulting

| Minter Landscape Consulting |  |  |
| :---: | :---: | :---: |
| Trial Balance |  |  |
| June 30, 2010 |  |  |
| ACCOUNT | DEBIT | CREDIT |
| Cash | \$ 2,900 |  |
| Accounts receivable | 10,270 |  |
| Supplies | 1,300 |  |
| Office furniture | 3,600 |  |
| Land | 44,600 |  |
| Accounts payable |  | \$ 4,200 |
| Notes payable |  | 23,000 |
| R. Minter, capital |  | 32,500 |
| R. Minter, withdrawals | 2,900 |  |
| Consulting service revenue |  | 10,300 |
| Advertising expense | 600 |  |
| Rent expense | 1,400 |  |
| Salary expense | 2,100 |  |
| Utilities expense | 330 | - |
| Total | \$70,000 | \$70,000 |

## Explanations:

Cash: \$1,600 + \$1,300 = \$2,900
Accounts receivable: \$10,000 - \$30 + \$300 = \$10,270
Supplies: $\$ 900+\$ 400=\$ 1,300$
Land: \$44,600 (amount given)
Accounts payable: $\$ 3,800+\$ 400=\$ 4,200$
R. Minter, capital: $\$ 31,600+\$ 900=\$ 32,500$
R. Minter, withdrawals: $\$ 2,000+\$ 900=\$ 2,900$

Consulting service revenue: $\$ 7,300+\$ 3,000=\$ 10,300$
Advertising expense: $\$ 600$ (amount given)
Rent expense: $\$ 1,000+\$ 200+\$ 200=\$ 1,400$
Utilities expense: $\$ 410-\$ 80=\$ 330$

(15-30 min.) $\mathbf{P}$ 2-1B

## Dear Friend,

This trial balance lists the accounts of Simpson Designs, along with their balances at December 31, 2010. The trial balance is an internal document used by accountants. It is not the same as a balance sheet or an income statement. The balance sheet and the income statement are financial statements used by managers, creditors, and potential investors for decision making.

The fact that the trial balance is in balance does not mean that Simpson Designs is a sound company. It merely means that total debits equal total credits in the company ledger. This says nothing about the soundness of the business. To compute Simpson Designs' net income or net loss for the current period, subtract total expenses from service revenue. As a matter of fact, Simpson Designs has experienced a net loss of $\$ 34,000$ [service revenue of $\$ 120,000$ minus total expenses of $\$ 154,000(\$ 16,000+\$ 24,000+$ $\$ 18,000+\$ 96,000)$ ].

Instructional Note: Student responses may vary considerably.

Gladys Yu Consulting

## Date Analysis of Transactions

Apr. 1 Given in the problem; not required for Apr. 1 transaction.
5 The expense Rent Expense is increased. Increases in expenses are recorded by debits; therefore, debit Rent Expense.
The asset Cash is decreased. Decreases in assets are recorded by credits; therefore, credit Cash.
9 The asset Land is increased. Increases in assets are recorded by debits; therefore, debit Land.
The asset Cash is decreased. Decreases in assets are recorded by credits; therefore, credit Cash.

The owner's equity of the business is decreased. Decreases in owner's equity are recorded by debits. Decreases due to withdrawals by the owner are debited to the owner, withdrawals account; therefore, debit Gladys Yu, Withdrawals.
The asset Cash is decreased. Decreases in assets are recorded by credits; therefore, credit Cash.

Req. 4
The learning from this problem will help a manager

1. Understand the accounting process. Transactions are recorded in the journal and then posted to the ledger. At the end of the period, the account balances are summarized on the trial balance.
2. Use accounting terminology: account, journal, ledger, trial balance, and so on.
3. Take the actual steps in the accounting process that lead to the financial statements.

Instructional Note: Student responses may vary considerably.

(15-20 min.) $\mathbf{P}$ 2-7B
Delainey Fitness

| Delainey Fitness |  |  |
| :---: | :---: | :---: |
| Trial Balance |  |  |
| October 31, 2010 |  |  |
| ACCOUNT | DEBIT | CREDIT |
| Cash | \$ 41,000 |  |
| Accounts receivable | 38,100 |  |
| Supplies | 9,000 |  |
| Office furniture | 19,500 |  |
| Fitness equipment | 710,000 |  |
| Accounts payable |  | \$ 31,500 |
| Notes payable |  | 294,500 |
| E. Delainey, capital |  | 462,000 |
| E. Delainey, withdrawals | 75,000 |  |
| Service revenue |  | 160,500 |
| Advertising expense | 4,500 |  |
| Rent expense | 15,000 |  |
| Salary expense | 32,500 |  |
| Utilities expense | 3,900 |  |
| Total | \$948,500 | \$948,500 |

## Explanations:

Cash: \$47,000 - \$6,000 = \$41,000
Accounts receivable: \$30,000 - \$900 + \$9,000 = \$38,100
Supplies: \$7,500 + \$1,500 = \$9,000
Office furniture: \$19,500 (amount given)
Accounts payable: \$30,000 + \$1,500 = \$31,500
E. Delainey, capital: \$442,500 + \$19,500 = \$462,000
E. Delainey, withdrawals: \$55,500 + \$19,500 = \$75,000

Service revenue: \$73,500 + \$87,000 = \$160,500
Advertising expense: \$4,500 (amount given)
Rent expense: \$9,000 + \$3,000 + \$3,000 = \$15,000
Utilities expense: \$3,000 + \$900 = \$3,900

(20-30 min.) $\mathbf{P} \mathbf{2 - 9 B}$
Maquina Lodge

Note: December 16-No entry required. However, the amounts posted must be corrected.

## Challenge Problems

${ }_{(15-20 \text { min. })} \mathbf{P}$ 2-1C

## Req. 1

The students may need a hint. Use the statement of Owner's Equity as a model.

| Owner's Equity <br> at the end of the | Owner's <br> withdrawals or <br> expenditures | -Owner's equity <br> at the beginning <br> of the year | $=$ |
| :---: | :---: | :---: | :---: | | Income during |
| :---: |
| the year |

In other words, Canada Revenue Agency values what Donna has at the end of the year and subtracts what she had at the beginning (\$8,000 in this case) plus an estimate of what she spent on herself during the year; the remainder is the income she must have earned during the year and the amount on which she should be taxed.

Req. 2
Note - no additional owner's investments have occurred.
The accounting concept is the accounting equation restated. Use the statement of Owner's Equity equation.

While Jack Russell may know his income each year, he doesn't know where his income came from (crops? calves? lambs?) nor what expenses he incurred to earn the income. He doesn't know whether each part of his operation is profitable or not. He doesn't know whether he paid too much tax because of missing expenses he could have deducted.

A formal accounting system would allow Jack to keep track of revenues and expenses by product line. In other words, it would provide the details of his income.

It is true that such a system would be more costly in terms of time and money than the present system. Jack would have to assess whether the additional information is worth the additional cost. There are many inexpensive accounting packages available on the market that are easy to use. Continuing using the present system is a questionable decision as the cash basis is not acceptable as an accounting process.

Req. 1
a. Cash 180

Accounts Receivable
b. Equipment 480

Supplies
c. Ledger should be corrected by increasing Fees Earned by $\$ 801$
d. Ledger corrected by debiting Salaries Expense by $\$ 600$.
e. Ledger for Accounts Payable must be corrected by debiting the account for \$466 (\$206 + \$260).
f. Pete Thomas, Withdrawals

Salaries Expense
Req. 2

| Thomas Services |  |  |
| :---: | :---: | :---: |
| Trial Balance |  |  |
| December 31, 2010 |  |  |
| ACCOUNT | DEBIT | CREDIT |
| Cash | \$3,020 ${ }^{\text {a }}$ |  |
| Accounts receivable | $3,151^{\text {b }}$ |  |
| Supplies | $320^{\text {c }}$ |  |
| Equipment | $3,480{ }^{\text {d }}$ |  |
| Accounts payable |  | 2,200 ${ }^{\text {e }}$ |
| Notes payable |  | 1,200 |
| Pete Thomas, capital |  | 8,100 ${ }^{\text {h }}$ |
| Pete Thomas, withdrawals | 400 |  |
| Fees earned |  | $3,181^{\dagger}$ |
| Salaries expense | $3,400^{9}$ |  |
| Office expense | 910 | - |
| Total | \$14,681 | $\underline{\underline{14,681}}$ |

## Explanations:

a. $\$ 2,840+\$ 180=\$ 3,020$
b. $\$ 3,331-\$ 180=\$ 3,151$
c. $\$ 800-\$ 480=\$ 320$
d. $\$ 3,000+\$ 480=\$ 3,480$
e. $\$ 2,666-(\$ 206+\$ 260)=\$ 2,200$
f. $\$ 2,380+\$ 801=\$ 3,181$
g. $\$ 3,400+\$ 600-\$ 600=\$ 3,400$
${ }^{\text {h. }}$ This is the "plug" figure to balance the trial balance.

Recommendations: Continue the business because expected net income exceeds the target amount.

1. Double-entry bookkeeping has the advantage that it records both sides (the "giving" side and the "receiving" side) of a business transaction. It is easy to spot errors in a double-entry system because total debits must always equal total credits.
2. The bank is not misusing the term credit. When you deposit money in the bank, the bank debits Cash (received from you) and credits Deposits Payable (to you). It is the liability account, Deposits Payable, that is the source of the term credit. This is why a bank credit is good for the depositor. It means you have more money in the bank.
3. Revenues are credits because they indicate an increase in owner's equity, which is a credit-balance account. Expenses are debits because they indicate a decrease in owner's equity. (Confusion arises with these relationships because of the other side of revenue and expense transactions. For example, Cash may be received for a revenue transaction. Cash is debited as Revenue is credited to account for the transaction. Cash may be paid for an expense transaction. Cash is credited as Expense is debited.)*

* Instructional Note: Students probably will not include this parenthetic information in their answers.

## Financial Statement Cases

## (15-20 min.) Financial Statement Case 1

1. To a bank, loans are a source of revenue and will provide future economic benefits, so by definition of an asset, they would be treated as such.
2. Liabilities are debts that are payable to outsiders, so by definition the deposits that a bank customer makes are considered an amount owing by the bank. (For student information, the Canada Deposit Insurance Corporation (CDIC) guarantees bank deposits of up to $\$ 100,000$; they are insured as soon as you deposit them in an eligible account. To find out more, visit www.cdic.ca.)
3. CWB Group's main source of income is interest income from loans.
4. CWB Group's largest expense is interest expense owing on deposits. For example when a customer receives interest on any accounts or deposits, that becomes an amount owing and an expense to the bank.
5. The same laws of debit and credit apply to the banks but from a customer's point of view, they are reversed. For example, when you deposit cash in the bank, the bank debits Cash and credits Deposits Payable to the customer. This is why a credit on your bank statement is good for you as a customer-the bank owes you your money. On the other hand, if you withdraw cash, the bank debits Deposits Payable and credits Cash. This is why a debit on your bank statement is bad for you as a customer-the bank owes you less money. Students who have worked for a bank or financial institution sometimes find this confusing.
