ESSAY

1. Solomon says that some answers to the question, "What is the meaning of life?," really assume that our lives have meaning only because they refer to someone or something outside ourselves. Write an essay explaining this way of answering the question, and then develop three detailed concepts of meaning that illustrate it. What are the shortcomings of this way of answering the question?

ANS:

This question explores Solomon's point that such answers postpone the question.

PTS: 1 REF: p. 46

2. Solomon says that the "question of the meaning of life is not just an act of discovery but also an important act of creation." What does he mean by this? Pick *three* of the images of meaning he discusses in the chapter (e.g., Life as story, life as a game), and explain each image, focusing on at least two ways that each vision of meaning requires creativity. Then step back and look for points of comparison between the acts of creativity required in each of the three visions of meaning. Which image is the most compelling to you, and why?

ANS:

Students will explore the notion of creating meaning.

PTS: 1 REF: p. 50-51

3. Write a dialogue in which two characters discuss their competing images of the meaning of life. One of the characters can represent your preferences, and the other can represent a viewpoint on meaning that you do not prefer. Your dialogue should bring out and explain each image in some detail; it should discuss the relative strengths and weaknesses of each. Finally, it should provide a reasoned argument or explanation why, given their strengths and weaknesses, the images are compelling to the characters. Be creative in writing your dialogue, and have fun, but stay focused on the issues.

ANS:

A critical dialogue writing assignment covering the entire chapter.

PTS: 1 REF: chapter 2

4. How do you answer the question "What is the meaning of life?" Your essay can draw on any of the options in the text, but can also develop a different image. In either case, be sure to explain the vision of meaning, and explain why this image is compelling to you. Solomon says that the way one answers the question of the meaning of life indicates one's "general view of life." What does your answer reveal about your general view of life?

ANS:

See chapter in its entirety.

PTS: 1 REF: chapter 2

5. Assume that your life is a story. Who are the major characters, and how does the plot unfold? How does the hero of the story (you!) personally develop and grow as the plot unfolds? Is your story a tragedy, a comedy, or something else? What are the major conflicts that the characters have to confront? What do you anticipate the next chapter in the story will be? How does viewing your life as a story alter your sense of your life's meaning?

ANS:

This question asks students to develop the narrative concept of meaning in chapter two.

PTS: 1 REF: p. 51-52

6. Albert Camus says that the only serious philosophical question is "Should one commit suicide?" What do you think Camus means by this? Is suicide necessarily tied to finding life meaningless -- or can there be other motives for suicide? Is Camus right? Do you think Sisyphus considers this question? If so, why does he choose to answer "No"? What does your answering the question "No" imply about your sense of the meaning of life?

ANS:

Exploring the rationale for suicide and its connection to the absurd.

PTS: 1 REF: pp. 49, 61

7. Social scientists tell us that people tend to be happiest when they have meaningful relationships in which they are actively engaged. This confirms the "Life as Relationships" viewpoint. Aristotle writes that "friendship seems to be one of the features of the good life." Explain what Aristotle means by this, and then describe your own experience of friendships. Be specific: focus on one or two examples. What makes them important to your life? How have friendships contributed to your sense of meaning?
