

1. Scarcity is a problem faced by all but the wealthiest of citizens.

- a. True
- b. False

ANSWER: False

POINTS: 1

REFERENCES: p. 37

TOPICS: 2.1 People Face Scarcity and Costly Trade-offs | Does Everyone Face Scarcity?

2. Resources are costly because they have alternative uses.

- a. True
- b. False

ANSWER: True

POINTS: 1

TOPICS: 2.1 People Face Scarcity and Costly Trade-offs | Does Everyone Face Scarcity?

3. Tractors, shovels, copy machines and computer programming expertise are all examples of scarce resources.

- a. True
- b. False

ANSWER: True

POINTS: 1

REFERENCES: p. 36

TOPICS: 2.1 People Face Scarcity and Costly Trade-offs | Scarcity and Resources

4. In order to not face tradeoffs, scarcity would have to be eliminated.

- a. True
- b. False

ANSWER: True

POINTS: 1

TOPICS: 2.1 People Face Scarcity and Costly Trade-offs | Does Everyone Face Scarcity?

5. Human capital consists of computers, tools and equipment owned by private individuals.

- a. True
- b. False

ANSWER: False

POINTS: 1

REFERENCES: p. 36

TOPICS: 2.1 People Face Scarcity and Costly Trade-offs | Scarcity and Resources

6. An entrepreneur organizes the other factors of production and bears the business risk.

- a. True
- b. False

ANSWER: True

POINTS: 1

REFERENCES: p. 36

TOPICS: 2.1 People Face Scarcity and Costly Trade-offs | Scarcity and Resources

7. Everyone faces scarcity.

- a. True
- b. False

ANSWER: True

POINTS: 1

REFERENCES: p. 37

TOPICS: 2.1 People Face Scarcity and Costly Trade-offs | Does Everyone Face Scarcity?

8. Garbage is scarce because it is abundant.

- a. True
- b. False

ANSWER: False

POINTS: 1

REFERENCES: p. 37

TOPICS: 2.1 People Face Scarcity and Costly Trade-offs | What Are Goods and Services?

9. If you made a wish list of things you wanted but did not now have, then you became able to have the things on that list, scarcity would be eliminated.

- a. True
- b. False

ANSWER: False

POINTS: 1

TOPICS: 2.1 People Face Scarcity and Costly Trade-offs | Does Everyone Face Scarcity?

10. Every choice has a cost

- a. True
- b. False

ANSWER: True

POINTS: 1

TOPICS: 2.1 People Face Scarcity and Costly Trade-offs | Does Everyone Face Scarcity?

11. A permanent change to a much higher price of gasoline would lead us to expect fewer gas guzzlers on the road, ceteris paribus.

- a. True
- b. False

ANSWER: True

POINTS: 1

REFERENCES: p. 44

TOPICS: 2.2 People Engage in Rational Decision Making and Marginal Thinking | Many Choices We Face Involve Marginal Thinking

12. Economists would predict that if salaries increased for engineers and decreased for MBAs, fewer people than before would go to graduate school in business and more than before would go in engineering, ceteris paribus.

- a. True
- b. False

ANSWER: True

POINTS: 1

REFERENCES: p. 46-47

TOPICS: 2.3 People Respond Predictably to Changes in Incentives | Positive and Negative Incentives

13. Marginal cost is the additional cost incurred as a result of making an economic decision.

- a. True
- b. False

ANSWER: True

POINTS: 1

REFERENCES: p. 42-43

TOPICS: 2.2 People Engage in Rational Decision Making and Marginal Thinking | Many Choices We Face Involve Marginal Thinking

14. When considering whether or not to consume a second slice of cake, an individual is following marginal thinking if she compares the total cost of consuming both the first and second slices with their total benefit before making a decision.

- a. True
- b. False

ANSWER: False

POINTS: 1

REFERENCES: p. 43

TOPICS: 2.2 People Engage in Rational Decision Making and Marginal Thinking | Many Choices We Face Involve Marginal Thinking

15. If Xavier gives up a job in which he earns \$23,000 per year in order to go to college full time, his foregone income is part of the opportunity cost of going to college.

- a. True
- b. False

ANSWER: True

POINTS: 1

REFERENCES: p. 40

TOPICS: 2.1 People Face Scarcity and Costly Trade-offs | The Opportunity Cost of Going to College or Having a Child

16. The opportunity cost of attending college is likely to be higher for a high school graduate who leaves a job grilling hamburgers than it is for a high school dropout who leaves a job working as a computer network administrator.

- a. True
- b. False

ANSWER: False

POINTS: 1

REFERENCES: p. 40

TOPICS: 2.1 People Face Scarcity and Costly Trade-offs | The Opportunity Cost of Going to College or Having a Child

17. The opportunity cost of a decision is the value of the best foregone alternative to the decision-maker.

- a. True
- b. False

ANSWER: True

POINTS: 1

REFERENCES: p. 39

TOPICS: 2.1 People Face Scarcity and Costly Trade-offs | To Choose Is to Lose

18. The opportunity cost of a decision is the value of all of the available alternatives that were not chosen.

- a. True
- b. False

ANSWER: False

POINTS: 1

REFERENCES: p. 39

TOPICS: 2.1 People Face Scarcity and Costly Trade-offs | To Choose Is to Lose

19. Since it is possible to grow coffee in the United States, the U.S. would gain by creating a domestic coffee industry rather than importing coffee from Brazil.

- a. True
- b. False

ANSWER: False

POINTS: 1

REFERENCES: p. 49

TOPICS: 2.4 Specialization and Trade Can Make Everyone Better Off | Specialization and Trade Lead to Greater Wealth and Prosperity

20. A country has a comparative advantage in the production of DVD players if it can produce DVD players at a lower opportunity cost than others.

- a. True
- b. False

ANSWER: True

POINTS: 1

REFERENCES: p. 48

TOPICS: 2.4 Specialization and Trade Can Make Everyone Better Off | Why Do People Specialize?

21. Small, developing countries must first become self-sufficient before they can benefit from international trade.

- a. True
- b. False

ANSWER: False

POINTS: 1

REFERENCES: p. 49

TOPICS: 2.4 Specialization and Trade Can Make Everyone Better Off | Specialization and Trade Lead to Greater Wealth and Prosperity

22. Market failure is a term used to describe what happens when market arrangements do not allocate resources efficiently.

- a. True
- b. False

ANSWER: True

POINTS: 1

REFERENCES: p. 54

TOPICS: 2.6 Appropriate Government Policies Can Improve Market Outcomes | Market Failure

23. Government price controls make communication of information between buyers and sellers more effective.

- a. True
- b. False

ANSWER: False

POINTS: 1

REFERENCES: p. 53

TOPICS: 2.5 Markets Can Improve Economic Efficiency | What Effect Do Price Controls Have on the Market System?

24. It is difficult to make the concept of need useful because it is difficult to define and compare “needs” among people.

- a. True
- b. False

ANSWER: True

POINTS: 1

REFERENCES: p. 37

TOPICS: 2.1 People Face Scarcity and Costly Trade-offs | Human Wants Exceed Available Resources

25. The market mechanism assures full employment and stable prices

- a. True
- b. False

ANSWER: False

POINTS: 1

REFERENCES: p. 57

TOPICS: 2.7 Government Policies May Help Stabilize the Economy | Introduction

26. Almost everyone is affected directly or indirectly by high rates of employment or high and variable rates of inflation.

- a. True
- b. False

ANSWER: True

POINTS: 1

REFERENCES: p. 57

TOPICS: 2.7 Government Policies May Help Stabilize the Economy | Introduction

27. Inflation is an increase in the overall price level in the economy.

- a. True
- b. False

ANSWER: True

POINTS: 1

REFERENCES: p. 58

TOPICS: 2.7 Government Policies May Help Stabilize the Economy | Inflation

28. Unemployment can be caused by downswings in the business cycle, people changing jobs, different skills needed by employers, or seasonal fluctuations in demand.

- a. True
- b. False

ANSWER: True

POINTS: 1

REFERENCES: p. 58

TOPICS: 2.7 Government Policies May Help Stabilize the Economy | Unemployment

29. Sustained economic growth occurs when workers' productivity rises.

- a. True
- b. False

ANSWER: True

POINTS: 1

REFERENCES: p. 60

TOPICS: 2.8 Higher Productivity Growth Leads to Greater Long-Run Economic Growth | Defining Economic Growth

30. The only way that an economy can increase its rate of consumption in the long run is by increasing the amount that it produces.

- a. True
- b. False

ANSWER: True

POINTS: 1

REFERENCES: p. 61

TOPICS: 2.8 Higher Productivity Growth Leads to Greater Long-Run Economic Growth | Economic Growth, Productivity, and the Standard of Living

31. Economic choices or tradeoffs are the result of:

- a. human greed.
- b. scarcity.
- c. poverty.
- d. private ownership of resources.

ANSWER: b

POINTS: 1

REFERENCES: p. 38

TOPICS: 2.1 People Face Scarcity and Costly Trade-offs | Trade-Offs

32. Scarcity means that:

- a. human desires are limited.
- b. resources are insufficient to satisfy all human desires.
- c. choices are unnecessary.
- d. all but the very wealthy must face choices.

ANSWER: b

POINTS: 1

REFERENCES: p. 37

TOPICS: 2.1 People Face Scarcity and Costly Trade-offs | Does Everyone Face Scarcity?

33. Scarcity applies to:

- a. only the poor.
- b. the value of our time.
- c. both the rich and poor.
- d. both (b) and (c)

ANSWER: d

POINTS: 1

REFERENCES: p. 37

TOPICS: 2.1 People Face Scarcity and Costly Trade-offs | Does Everyone Face Scarcity?

34. Scarcity:

- a. is only a problem in communist countries.
- b. is a problem in both communist and socialist countries, but not in market economies.
- c. does not exist in wealthy countries.
- d. will never be eradicated because humans develop new wants as productive capabilities improve.

ANSWER: d

POINTS: 1

REFERENCES: p. 37-38

TOPICS: 2.1 People Face Scarcity and Costly Trade-offs | Will Scarcity Ever Be Eradicated?

35. Scarcity:

- a. exists in command economies.
- b. exists in market economies.
- c. exists only for the poor in any type of economy.
- d. (a) and (b) above are correct

ANSWER: d

POINTS: 1

REFERENCES: p. 37

TOPICS: 2.1 People Face Scarcity and Costly Trade-offs | Scarcity and Resources

36. Which of the following is false?

- a. A resource is anything that can be used to produce anything else we value.
- b. Resources are costly because they have alternative uses.
- c. Losses mean resources are not being used efficiently.
- d. None of the above is false; all are true.

ANSWER: d

POINTS: 1

REFERENCES: p. 37

TOPICS: 2.1 People Face Scarcity and Costly Trade-offs | Scarcity and Resources

37. Which of the following is false?

- a. Tangible goods are inherently more valuable than intangible goods.
- b. Scarcity forces people to compete.
- c. The elimination of a bad can be considered a good.
- d. None of the above is false; all are true.

ANSWER: a

POINTS: 1

REFERENCES: p. 37

TOPICS: 2.1 People Face Scarcity and Costly Trade-offs | What Are Goods and Services?

38. Scarcity

- a. Can be eradicated with sufficient economic growth.
- b. Could be eradicated if we could just eliminate greed.
- c. Can never be eradicated
- d. Both a. and b. are true

ANSWER: c

POINTS: 1

REFERENCES: p. 37

TOPICS: 2.1 People Face Scarcity and Costly Trade-offs | Will Scarcity Ever Be Eradicated?

39. Scarce goods are:

- a. desirable and unlimited in amount.
- b. undesirable and unlimited in amount.
- c. desirable and limited in amount.
- d. undesirable and limited in amount.

ANSWER: c

POINTS: 1

REFERENCES: p. 37

TOPICS: 2.1 People Face Scarcity and Costly Trade-offs | Scarcity and Resources

40. An economy's resources:

- a. include land, labor, capital, and entrepreneurial skills.
- b. are unlimited in a country like the United States.
- c. are always efficiently utilized in wealthy nations.
- d. consist of land, labor and capital, but not entrepreneurial skills.

ANSWER: a

POINTS: 1

REFERENCES: p. 36

TOPICS: 2.1 People Face Scarcity and Costly Trade-offs | Scarcity and Resources

41. Which of the following is not a resource for a society?

- a. capital goods, like factories and machine tools
- b. entrepreneurship
- c. legal institutions
- d. labor

ANSWER: c

POINTS: 1

REFERENCES: p. 36

TOPICS: 2.1 People Face Scarcity and Costly Trade-offs | Scarcity and Resources

42. Which of the following is not a resource for a society?

- a. cash
- b. entrepreneurship
- c. land
- d. labor

ANSWER: a

POINTS: 1

REFERENCES: p. 36

TOPICS: 2.1 People Face Scarcity and Costly Trade-offs | Scarcity and Resources

43. Resources are
- scarce for households but abundant for the whole economy
 - abundant for households but scarce for the whole economy
 - scarce for households and scarce for the whole economy.
 - abundant for households and the whole economy.

ANSWER: c

POINTS: 1

REFERENCES: p. 36

TOPICS: 2.1 People Face Scarcity and Costly Trade-offs | Scarcity and Resources

44. Which of the following is an example of a resource?
- Land
 - Capital
 - Entrepreneurship
 - All of the above are resources

ANSWER: d

POINTS: 1

REFERENCES: p. 37

TOPICS: 2.1 People Face Scarcity and Costly Trade-offs | Scarcity and Resources

45. Which of the following is an example of a resource?
- a river
 - a tractor
 - the chef at a restaurant
 - all of the above are resources

ANSWER: d

POINTS: 1

REFERENCES: p. 36

TOPICS: 2.1 People Face Scarcity and Costly Trade-offs | Scarcity and Resources

46. Which of the following is not an example of a resource?
- an office building
 - a product's price
 - the land plowed by a farmer in order to grow corn
 - the chief executive officer of a large corporation

ANSWER: b

POINTS: 1

78. The opportunity cost of an airplane flight:

- a. differs across passengers only to the extent that each traveler pays a different airfare.
- b. is identical for all passengers and equal to the number of hours a particular flight takes.
- c. differs across passengers to the extent that both airfares paid and the highest valued use of travel time vary.
- d. is equal to the cost of a bus ticket, the next best form of alternative transportation to flying.

ANSWER: c

POINTS: 1

REFERENCES: p. 39

TOPICS: 2.1 People Face Scarcity and Costly Trade-offs | To Choose Is to Lose

Exhibit 2-1

<u>Possibility A</u>	<u>Economics Score</u>	<u>History Score</u>
I	94	76
II	87	84
III	77	91

79. Refer to Exhibit 2-1. A student has only a few hours to prepare for two different exams this afternoon. The above table shows alternative possible exam scores with three alternative uses of the student's time. The opportunity cost of scoring a 94 on the economics exam rather than a 77 is:

- a. 8 fewer points on the history exam.
- b. 15 fewer points on the history exam.
- c. 76 points on the history exam.
- d. 91 points on the history exam.

ANSWER: b

POINTS: 1

REFERENCES: p. 39

TOPICS: 2.1 People Face Scarcity and Costly Trade-offs | To Choose Is to Lose

80. Refer to Exhibit 2-1. A student has only a few hours to prepare for two different exams tomorrow morning. The above table shows alternative possible exam outcomes with three alternative uses of the student's time. The opportunity cost of scoring an 84 on the history exam rather than 76 is:

- a. 10 fewer points on the economics exam.
- b. 7 fewer points on the economics exam.
- c. 8 fewer points on the history exam.
- d. 12 fewer points on the economics exam.

ANSWER: b

POINTS: 1

REFERENCES: p. 39

TOPICS: 2.1 People Face Scarcity and Costly Trade-offs | To Choose Is to Lose

81. Refer to Exhibit 2-1. A student has only a few hours to prepare for two different exams tomorrow morning. The above table shows alternative possible exam outcomes with three alternative uses of the student's time. The opportunity cost of scoring an 91 on the history exam rather than 76 is:

- a. 10 fewer points on the economics exam.
- b. 17 fewer points on the economics exam.
- c. 7 fewer points on the economics exam.
- d. 15 fewer points on the economics exam.

ANSWER: b

POINTS: 1

REFERENCES: p. 39

TOPICS: 2.1 People Face Scarcity and Costly Trade-offs | To Choose Is to Lose

82. Opportunity costs:

- a. only include explicit costs paid out-of-pocket.
- b. never involve costs paid out-of-pocket.
- c. may or may not involve costs paid out-of-pocket.
- d. are always measured in terms of time.

ANSWER: c

POINTS: 1

REFERENCES: p. 39

TOPICS: 2.1 People Face Scarcity and Costly Trade-offs | To Choose Is to Lose

83. The opportunity cost of an action includes:

- a. the monetary expenses incurred as a result of the action.
- b. the highest valued alternative use of the time spent on the action.
- c. the benefits received as a result of the action.
- d. only a. and b.

ANSWER: d

POINTS: 1

REFERENCES: p. 39

TOPICS: 2.1 People Face Scarcity and Costly Trade-offs | To Choose Is to Lose

84. The opportunity cost of an action is always equal to:

- a. the monetary expense incurred as a result of the action.
- b. the value of any alternative use of the time expended on the action.
- c. the highest valued alternatives sacrificed as a result of the action.
- d. the sum of the benefits received as a result of the action.

ANSWER: c

POINTS: 1

REFERENCES: p. 39

TOPICS: 2.1 People Face Scarcity and Costly Trade-offs | To Choose Is to Lose

85. The opportunity cost of an action:

- a. can be objectively determined only by economists.
- b. is a subjective valuation that can only be determined by the individual who chooses the action.
- c. can be determined by adding up the dollar costs incurred as a result of the action.
- d. can be determined by considering both the benefits that flow from as well as the monetary costs incurred as a result of the action.

ANSWER: b

POINTS: 1

REFERENCES: p. 39

TOPICS: 2.1 People Face Scarcity and Costly Trade-offs | To Choose Is to Lose

86. The opportunity cost of attending a college basketball game tonight would increase if:

- a. Your friend offers to pay you more for your ticket, because he really wants to go.
- b. Your favorite player on the teams is injured and will not play tonight.
- c. Your economics TA decides to offer a review session, for which attendance will count 10% of your course grade, at the same time as the game
- d. Either a. or c. occurs

ANSWER: d

POINTS: 1

REFERENCES: p. 39

TOPICS: 2.1 People Face Scarcity and Costly Trade-offs | To Choose Is to Lose

87. Opportunity cost:

- a. Always refers to the dollar price paid for a good.
- b. Always equals the best alternative value of the time spent in going to a concert or sporting event.
- c. Of any good is zero for any good that is given away free, if you wait in a line to get it.
- d. Increases when the best foregone alternative becomes more valuable.

ANSWER: d

POINTS: 1

REFERENCES: p. 39

TOPICS: 2.1 People Face Scarcity and Costly Trade-offs | To Choose Is to Lose

88. The opportunity cost of an action is:

- a. the value of the best foregone alternative.
- b. the difference between the benefits that result and the expenses incurred as a result of the action.
- c. the same as the expected benefit of the action.
- d. the same for everyone who undertakes the action.

ANSWER: a

POINTS: 1

REFERENCES: p. 39

TOPICS: 2.1 People Face Scarcity and Costly Trade-offs | To Choose Is to Lose

89. Lance's boss offers him twice his usual wage rate to work tonight instead of taking his girlfriend on a romantic date. This offer will likely:

- a. not affect the opportunity cost of going on the date.
- b. reduce the opportunity cost of going on the date because giving up the additional work dollars will make his girlfriend feel even more appreciated.
- c. increase the opportunity cost of going on the date.
- d. reduce the opportunity cost of working.

ANSWER: c

POINTS: 1

REFERENCES: p. 39

TOPICS: 2.1 People Face Scarcity and Costly Trade-offs | To Choose Is to Lose

90. The opportunity cost of a two-week vacation in Hawaii for an Arizona resident includes:

- a. the cost of the beach resort hotel accommodations.
- b. the airfare to and from Honolulu International Airport.
- c. the time that could have been used to travel somewhere else.

d. all of the above.

ANSWER: d

POINTS: 1

REFERENCES: p. 39

TOPICS: 2.1 People Face Scarcity and Costly Trade-offs | To Choose Is to Lose

91. The opportunity cost of attending a concert would include:

- a. the price you paid for the ticket and the value of your time.
- b. the price you paid for the ticket, but not the value of your time.
- c. the value of your time, but not the price you paid for the ticket.
- d. neither the price of the ticket nor the value of your time.

ANSWER: a

POINTS: 1

REFERENCES: p. 39

TOPICS: 2.1 People Face Scarcity and Costly Trade-offs | To Choose Is to Lose

92. A university offers a free shuttle service around campus. The opportunity cost of the shuttle service to the university is equal to:

- a. zero, since it is free to students who want to ride.
- b. the wages paid to the shuttle drivers.
- c. the wages paid to the shuttle drivers, plus the gasoline expenses.
- d. the highest valued alternative use of the resources devoted to the shuttle program.

ANSWER: d

POINTS: 1

REFERENCES: p. 39

TOPICS: 2.1 People Face Scarcity and Costly Trade-offs | To Choose Is to Lose

93. In order to acquire more of a good we must sacrifice production of another good, because resources are in limited supply. This illustrates the concept of:

- a. the division of labor.
- b. *ceteris paribus*.
- c. opportunity cost.
- d. specialization.

ANSWER: c

POINTS: 1

REFERENCES: p. 39

TOPICS: 2.1 People Face Scarcity and Costly Trade-offs | To Choose Is to Lose

94. Airlines that restrict members' ability to use frequent flyer miles during holiday periods likely do so because:

- a. the opportunity cost to airlines of filling seats with frequent flyers is lower at these times.
- b. the opportunity cost to airlines of filling seats with frequent flyers is higher at these times.
- c. passengers have more transportation alternatives available to them at these times.
- d. airlines want to protect their most loyal customers from the discomfort of overcrowded airplanes.

TOPICS: 2.3 People Respond Predictably to Changes in Incentives | Positive and Negative Incentives

131. Pollution damages the environment we live in. An economist would advise that we reduce air pollution:

- a. as long as the marginal benefit from air pollution reduction outweighs the marginal cost of achieving the reduction.
- b. until the total benefit from air pollution reduction just equals the total cost of pollution reduction.
- c. until air pollution levels reach near-zero levels.
- d. to the levels experienced in the 1950s when air was much cleaner near big cities.

ANSWER: a

POINTS: 1

REFERENCES: p. 43

TOPICS: 2.2 People Engage in Rational Decision Making and Marginal Thinking | Many Choices We Face Involve Marginal Thinking

132. Positive incentives:

- a. increase benefits or reduce costs.
- b. decrease the amount of affected behaviors.
- c. increase the amount of affected behaviors.
- d. Do both a. and c.

ANSWER: d

POINTS: 1

REFERENCES: p. 47

TOPICS: 2.3 People Respond Predictably to Changes in Incentives | Positive and Negative Incentives

133. Positive incentives do not:

- a. increase benefits.
- b. result in an increased level of the related activity.
- c. reduce costs.
- d. discourage consumption.

ANSWER: d

POINTS: 1

REFERENCES: p. 47

TOPICS: 2.3 People Respond Predictably to Changes in Incentives | Positive and Negative Incentives

134. Imposing a new \$10 downtown parking tax

- a. would be a negative incentive that might have the positive result of reducing downtown congestion.
- b. would be a positive incentive that might have the positive result of reducing downtown congestion.
- c. would be a negative incentive that could only have negative results.
- d. None of the above is true.

ANSWER: a

POINTS: 1

REFERENCES: p. 47

TOPICS: 2.3 People Respond Predictably to Changes in Incentives | Positive and Negative Incentives

135. Negative incentives:

- a. increase benefits or reduce costs.
- b. increase behaviors.
- c. decrease benefits or increase costs.
- d. include both cash subsidies and taxes.

ANSWER: c

POINTS: 1

REFERENCES: p. 47

TOPICS: 2.3 People Respond Predictably to Changes in Incentives | Positive and Negative Incentives

136. Which of the following is an example of a positive incentive?

- a. You expect to be grounded if your grades slip below a B average.
- b. You expect to receive a scholarship if your grades remain high.
- c. Desserts will be unavailable at the cafeteria if you arrive after 7:00 p.m.
- d. Campus police institute a policy of impounding cars parked in delivery zone spaces.

ANSWER: b

POINTS: 1

REFERENCES: p. 47

TOPICS: 2.3 People Respond Predictably to Changes in Incentives | Positive and Negative Incentives

137. Which of the following is likely to provide teenagers with the greatest incentive not to buy one more pack of cigarettes?

- a. public service television advertisement featuring Jennifer Lopez urging kids to refrain from smoking
- b. an additional \$2.00 per-pack tax on cigarettes
- c. citing moral grounds, Leonardo DiCaprio refuses to play any part in which he will be seen smoking
- d. a law prohibits anyone from smoking in public buildings

ANSWER: b

POINTS: 1

REFERENCES: p. 47

TOPICS: 2.3 People Respond Predictably to Changes in Incentives | Positive and Negative Incentives

138. When government policies change it can:

- a. alter incentives
- b. alter trade-offs
- c. change opportunity costs
- d. do all of the above.

ANSWER: d

POINTS: 1

REFERENCES: p. 47

TOPICS: 2.3 People Respond Predictably to Changes in Incentives | Positive and Negative Incentives

139. According to the Global Watch, a recent study on Chilean bus drivers revealed that drivers who are paid by the number of passengers rather than by the hour were far more productive because:

- a. bus drivers do not like to work that hard.
- b. bus drivers are responding to average costs.

- c. bus drivers don't like to work on the clock—getting paid by the hour.
- d. bus drivers, like most of us, respond to incentives.

ANSWER: d

POINTS: 1

REFERENCES: p. 47

TOPICS: 2.3 People Respond Predictably to Changes in Incentives | Positive and Negative Incentives

140. Which of the following statements is most consistent with the rule of rational choice?

- a. "The Environmental Protection Agency should strive to eliminate virtually all air and water pollution."
- b. "When evaluating new prescription drugs, the Food and Drug Administration should weigh each drug's potential health benefits against the potential health risks posed by known side effects."
- c. "Police forces should be enlarged until virtually all crime is eliminated."
- d. "Manufacturers of automobiles should seek to make cars safer, no matter the costs involved."

ANSWER: b

POINTS: 1

REFERENCES: p. 43

TOPICS: 2.2 People Engage in Rational Decision Making and Marginal Thinking | Many Choices We Face Involve Marginal Thinking

141. The following table shows the marginal benefit to an individual of consuming pints of ice cream.

<u>Pints of ice cream</u>	<u>Marginal Benefit</u>
1	\$7.00
2	\$5.00
3	\$3.00
4	\$2.00
5	\$1.00
6	\$0.50
7	-\$1.00

If the price of each pint is \$4.00 at this establishment, a rational consumer would purchase

- a. 1 pint of ice cream
- b. 2 pint of ice cream
- c. 3 pint of ice cream
- d. 5 pint of ice cream

ANSWER: b

POINTS: 1

REFERENCES: p. 43

TOPICS: 2.2 People Engage in Rational Decision Making and Marginal Thinking | Many Choices We Face Involve Marginal Thinking

142. The following table shows the marginal benefit to an individual of consuming pints of ice cream.

<u>Pints of ice cream</u>	<u>Marginal Benefit</u>
1	\$5.00
2	\$3.00
3	\$1.00
4	-\$1.00
5	-\$3.00
6	-\$5.00

If the ice cream parlor was giving away ice cream for its anniversary celebration, a rational consumer would purchase

- a. 3 pint of ice cream
- b. 4 pints of ice cream
- c. 5 pints of ice cream
- d. 6 pints of ice cream

ANSWER: a

POINTS: 1

REFERENCES: p. 43

TOPICS: 2.2 People Engage in Rational Decision Making and Marginal Thinking | Many Choices We Face Involve Marginal Thinking

143. Individuals:

- a. respond to incentives in predictable ways.
- b. decrease the level of an activity in response to negative incentives.
- c. respond to positive incentives by increasing the level of activity.
- d. do all of the above.

ANSWER: d

POINTS: 1

REFERENCES: p. 47

TOPICS: 2.3 People Respond Predictably to Changes in Incentives | Positive and Negative Incentives

144. If airfares to Europe were to increase, other things equal, an economist would predict that:

- a. most people will not change their travel and vacation plans.
- b. more individuals will choose to fly to Europe because now it is a more valuable experience.
- c. some individuals will substitute toward other travel destinations.
- d. airlines will make significantly greater profits.

ANSWER: c

POINTS: 1

REFERENCES: p. 39

TOPICS: 2.1 People Face Scarcity and Costly Trade-offs | To Choose Is to Lose

145. Specialization:

- a. is a way for individuals to make the best use of resources by devoting themselves to one primary productive activity.
- b. is a way for society to become wealthier while not using their resources.
- c. is a way for people to avoid having to trade.
- d. increases one's opportunity cost of the activity they choose to specialize in.

ANSWER: a

POINTS: 1

REFERENCES: p. 48

TOPICS: 2.4 Specialization and Trade Can Make Everyone Better Off | Why Do People Specialize?

146. Which of the following is false?

- a. Once a country has a comparative advantage in producing a good, that comparative advantage will always continue.
- b. If you can mow the lawn at home faster than your younger brother, you have a comparative advantage over him in mowing the lawn.

- c. Restrictions on trade will reduce people's degree of specialization according to comparative advantage.
- d. As practice at producing what you have a comparative advantage in makes you better at it, your comparative advantage would tend to increase.

ANSWER: a

POINTS: 1

REFERENCES: p. 48

TOPICS: 2.4 Specialization and Trade Can Make Everyone Better Off | Why Do People Specialize?

147. Resources are used more efficiently if people, regions, and countries specialize in goods for which they have a(n):

- a. disincentive to trade with others.
- b. higher opportunity cost.
- c. absolute advantage in production.
- d. comparative advantage in production.

ANSWER: d

POINTS: 1

REFERENCES: p. 48

TOPICS: 2.4 Specialization and Trade Can Make Everyone Better Off | Why Do People Specialize?

148. Kelly is an attorney and also an excellent typist. She can type 120 words per minute, but she is pressed for time because she has all the legal work she can handle at \$75 per hour. Kelly's friend Todd works as a waiter and would like some typing work (provided that he can make at least his wage as a waiter, which is \$25 per hour). Todd can only type 60 words per minute.

- a. Kelly should do all the typing because she is faster.
- b. Todd should do the typing as long as his earnings are more than \$25 and less than \$37.50 per hour.
- c. Unless Todd can match Kelly's typing speed, he should remain a waiter.
- d. Todd should do the typing, and Kelly should pay him \$20 per hour.

ANSWER: b

POINTS: 1

REFERENCES: p. 49

TOPICS: 2.4 Specialization and Trade Can Make Everyone Better Off | The Advantages of Specialization

149. Sergei makes millions of dollars a year playing hockey. Sergei is also the best tailor in his hometown in Russia. Why is Sergei unlikely to make his own clothes?

- a. He has already made all the clothes he will need for a few years.
- b. The opportunity cost to him of making his own clothes is very high because it takes away from his lucrative hockey career.
- c. Sergei just can't find the material he likes in the United States.
- d. Sergei has a comparative advantage in tailoring clothes.

ANSWER: b

POINTS: 1

REFERENCES: p. 49

TOPICS: 2.4 Specialization and Trade Can Make Everyone Better Off | The Advantages of Specialization

150. An individual has a comparative advantage in production if that individual:

- a. can produce at the highest opportunity cost.
- b. is more self-sufficient than others.
- c. can produce at the lowest opportunity cost.

d. all of the above

ANSWER: c

POINTS: 1

REFERENCES: p. 48

TOPICS: 2.4 Specialization and Trade Can Make Everyone Better Off | Why Do People Specialize?

151. When a person possesses a comparative advantage in the production of one good or service, it:

- a. means that the person's opportunity cost of producing that good or service is higher than for that of other goods.
- b. discourages specialization.
- c. promotes greater self-sufficiency.
- d. permits gains from trade to be realized due to a more efficient use of resources.

ANSWER: d

POINTS: 1

REFERENCES: p. 50

TOPICS: 2.4 Specialization and Trade Can Make Everyone Better Off | Specialization and Trade Lead to Greater Wealth and Prosperity

152. A nation has a comparative advantage in the production of cars over another nation if:

- a. it can produce cars with fewer resources than the other country.
- b. it can produce cars at a lower opportunity cost than the other country.
- c. it can produce cars at a higher opportunity cost than the other country.
- d. it can produce cars at the same opportunity cost and its consumers have a stronger preference for cars than consumers in the other country.

ANSWER: b

POINTS: 1

REFERENCES: p. 50

TOPICS: 2.4 Specialization and Trade Can Make Everyone Better Off | Specialization and Trade Lead to Greater Wealth and Prosperity

153. Mike is able to complete a tax return in two hours earning a fee of \$100. As an alternative, he could pitch in at a volunteer car wash washing four cars in one hour. His roommate Joe would take four hours to complete a tax return earning a \$100 fee and also can wash four cars in one hour. Both individuals could benefit if

- a. Mike worked on tax returns for eight hours and paid Joe \$5 for each car he washed
- b. Mike worked on tax returns for eight hours and paid Joe \$10 for each car he washed.
- c. Mike worked on tax returns for eight hours and paid Joe \$15 for each car he washed
- d. Joe worked on tax returns for eight hours and paid Mike \$10 for each car he washed

ANSWER: b

POINTS: 1

REFERENCES: p. 50

TOPICS: 2.4 Specialization and Trade Can Make Everyone Better Off | Specialization and Trade Lead to Greater Wealth and Prosperity

154. To obtain the greatest gains from trade, a country should specialize in and ____ those goods for which it has a comparative advantage and ____ those goods for which other countries have a comparative advantage.

- a. export; export
- b. import; import

c. export; import

d. import; export

ANSWER: c

POINTS: 1

REFERENCES: p. 50

TOPICS: 2.4 Specialization and Trade Can Make Everyone Better Off | Specialization and Trade Lead to Greater Wealth and Prosperity

155. Trade

a. can make every participating nation better off.

b. makes some participating nations better off and others worse off.

c. makes a participating nation better off only if the nation cannot produce that good itself.

d. helps developed countries and hurts developing countries.

ANSWER: a

POINTS: 1

REFERENCES: p. 50

TOPICS: 2.4 Specialization and Trade Can Make Everyone Better Off | Specialization and Trade Lead to Greater Wealth and Prosperity

156. Elsie owns a dairy farm and Elmer is a baker. If Elsie trades butter and milk for some of Elmer's pies than:

a. Elsie is the only one that gains from the trade.

b. Elmer is the only one that gains from the trade.

c. Elsie and Elmer are both made better off by the trade.

d. Both Elmer and Elsie are made worse off by the trade.

ANSWER: c

POINTS: 1

REFERENCES: p. 50

TOPICS: 2.4 Specialization and Trade Can Make Everyone Better Off | Specialization and Trade Lead to Greater Wealth and Prosperity

157. Specialization and trade can create more wealth (output of goods and services):

a. when we only trade for things we could not produce ourselves.

b. when each person specializes in what they do relatively best and trade for the rest.

c. only if we gain and other countries lose.

d. only with certain nations.

ANSWER: b

POINTS: 1

REFERENCES: p. 50

TOPICS: 2.4 Specialization and Trade Can Make Everyone Better Off | Specialization and Trade Lead to Greater Wealth and Prosperity

158. Specialization:

a. leads to greater self-sufficiency.

b. can lead to an increase in overall production.

c. is always the result of an inefficient use of resources.

d. helps workers to develop skills by working on a large number of tasks.

ANSWER: b

POINTS: 1

REFERENCES: p. 49

TOPICS: 2.4 Specialization and Trade Can Make Everyone Better Off | The Advantages of Specialization

159. The ability to produce at a lower opportunity cost than someone else is referred to as:

- a. absolute advantage.
- b. comparative advantage.
- c. absolute superiority.
- d. competitive disadvantage.

ANSWER: b

POINTS: 1

REFERENCES: p. 48

TOPICS: 2.4 Specialization and Trade Can Make Everyone Better Off | Why Do People Specialize?

160. Specialization and trade benefits all participants only if:

- a. They specialize in those things they have both a comparative and absolute advantage in.
- b. They specialize in those things they have a comparative advantage in, even if they have an absolute disadvantage.
- c. They specialize in those things they have an absolute advantage in, even if they have a comparative disadvantage.
- d. Traders have the same opportunity cost of production

ANSWER: b

POINTS: 1

REFERENCES: p. 48

TOPICS: 2.4 Specialization and Trade Can Make Everyone Better Off | Why Do People Specialize?

161. Specialization and trade benefits a participating country that:

- a. specializes in those things they have both a comparative and absolute advantage in.
- b. specializes in those things they have a comparative advantage in, even if they have an absolute disadvantage.
- c. They specialize in those things they have an absolute advantage in, even if they have a comparative disadvantage.
- d. Does either a. or b.

ANSWER: d

POINTS: 1

TOPICS: 2.5 Markets Can Improve Economic Efficiency | How Does the Market Work to Allocate Re-sources?

163. Which of the following is false?

- a. Markets can make products better.
- b. Markets can make products cheaper.
- c. Markets can create new products.
- d. Markets only result in producing those goods and services that are socially desirable.

ANSWER: d

POINTS: 1

REFERENCES: p. 52

TOPICS: 2.5 Markets Can Improve Economic Efficiency | How Does the Market Work to Allocate Re-sources?

164. Which of the following is false?

- a. Market prices signal the relative availability of products to buyers.
- b. Market prices signal the relative value consumers place on products to sellers.
- c. The information and incentives offered by market price adjustments provide the “invisible hand” toward socially desirable cooperation between consumers and producers.
- d. None of the above are false; all are true.

ANSWER: d

POINTS: 1

REFERENCES: p. 52

TOPICS: 2.5 Markets Can Improve Economic Efficiency | How Does the Market Work to Allocate Re-sources?

165. Which of the following is false?

- a. Property rights provide the rules of the economic game.
- b. Well defined property rights give individuals the incentive to use their property efficiently.
- c. Owners with property rights have an incentive to conserve their property.
- d. Owners have no incentive to care what values others place on what they own.

ANSWER: d

POINTS: 1

TOPICS: 2.6 Appropriate Government Policies Can Improve Market Outcomes | Property Rights and the Legal System

166. Which of the following is true?

- a. Producing too much pollution could be a market failure, but producing too little research cannot.
- b. Producing too little research could be a market failure, but producing too much pollution cannot.
- c. Both producing too much pollution and producing too little research could be market failures.
- d. Market failures mean that government intervention in those areas will improve the results.

ANSWER: c

POINTS: 1

REFERENCES: p. 54

TOPICS: 2.6 Appropriate Government Policies Can Improve Market Outcomes | Market Failure

167. In a market system, which of the following is a symptom of market failure?

- a. competition
- b. falling prices
- c. scarcity of resources

d. air pollution that those exposed object to

ANSWER: d

POINTS: 1

REFERENCES: p. 54

TOPICS: 2.6 Appropriate Government Policies Can Improve Market Outcomes | Market Failure

168. Which of the following serve as the language of the market system?

- a. Monetary and fiscal policies
- b. Volatility
- c. Market prices
- d. Lawsuits

ANSWER: c

POINTS: 1

REFERENCES: p. 52

TOPICS: 2.5 Markets Can Improve Economic Efficiency | How Does the Market Work to Allocate Re-sources?

169. Prices communicate information about relative availability of products. For example, a decrease in the price of corn signals to consumers and producers that:

- a. consumers are buying more corn than before.
- b. corn is relatively more abundant than before.
- c. corn is relatively less abundant than before.
- d. consumers are stocking up on corn because of the predictions of a cold winter.

ANSWER: b

POINTS: 1

REFERENCES: p. 52

TOPICS: 2.5 Markets Can Improve Economic Efficiency | Market Prices Provide Important Information

170. In a market system, decisions about how to allocate resources are made:

- a. by central planning boards in each industry.
- b. by a lottery system.
- c. by individuals and firms interacting in markets coordinated by market prices.
- d. by large conglomerates working cooperatively with the government.

ANSWER: c

POINTS: 1

REFERENCES: p. 52

TOPICS: 2.5 Markets Can Improve Economic Efficiency | How Does the Market Work to Allocate Re-sources?

171. In markets, information about the relative value of resources is communicated through:

- a. government agencies.
- b. planning committees.
- c. prices.
- d. unions.

ANSWER: c

POINTS: 1

REFERENCES: p. 52

TOPICS: 2.5 Markets Can Improve Economic Efficiency | Market Prices Provide Important Information

172. In a market economy, the amount of a good that is produced is primarily decided by the interaction of:

- a. buyers and sellers.
- b. all consumers.
- c. producers and input suppliers.
- d. producers and government planning committees.

ANSWER: a

POINTS: 1

REFERENCES: p. 52

TOPICS: 2.5 Markets Can Improve Economic Efficiency | Market Prices Provide Important Information

173. Market failure occurs when:

- a. the stock markets tumble due to heavy selling.
- b. the market economy fails to allocate resources efficiently.
- c. demand shows signs of slowing down.
- d. a country cannot produce a particular good or service at a lower opportunity cost than other countries.

ANSWER: b

POINTS: 1

REFERENCES: p. 54

TOPICS: 2.6 Appropriate Government Policies Can Improve Market Outcomes | Market Failure

174. Which of the following is true?

- a. Markets determine what goods are going to be produced, but not the distribution of output among members of society.
- b. Markets determine the distribution of output among members of society, but not what goods are going to be produced.
- c. Markets determine both what goods are going to be produced and the distribution of output among members of society.
- d. Government can redistribute income without changing what will be produced in a society.

ANSWER: c

POINTS: 1

REFERENCES: p. 54

TOPICS: 2.6 Appropriate Government Policies Can Improve Market Outcomes | Does the Market Distribute Income Fairly?

175. Which of the following is true?

- a. Poverty, defined as the lack of a minimum level of consumption, could be potentially eliminated, but scarcity could not.
- b. Scarcity could be potentially eliminated but poverty could not.
- c. Both scarcity and poverty could be potentially eliminated.
- d. Neither scarcity nor poverty could be potentially eliminated.

ANSWER: a

POINTS: 1

TOPICS: 2.8 Higher Productivity Growth Leads to Greater Long-Run Economic Growth | Defining Economic Growth

220. Which of the following do not contribute to long-term economic growth?

- a. substantial increases in the money supply
- b. increased productivity
- c. savings and investment
- d. new production technologies

ANSWER: a

POINTS: 1

REFERENCES: p. 62

TOPICS: 2.8 Higher Productivity Growth Leads to Greater Long-Run Economic Growth | Defining Economic Growth

221. Which of the following contribute to increases in productivity?

- a. incentives for innovation
- b. more physical capital
- c. an improved education system
- d. all of the above

ANSWER: d

POINTS: 1

REFERENCES: p. 62

TOPICS: 2.8 Higher Productivity Growth Leads to Greater Long-Run Economic Growth | Defining Economic Growth

222. Assume that Colombia can produce 1,000 pounds of coffee in one day or produce 200 pounds of bananas in one day. In addition, assume that Ecuador can produce 300 pounds of coffee in one day or produce 100 pounds of bananas in one day. Which country has the comparative advantage in coffee and which has the comparative advantage in bananas? Determine a pattern of trade regarding these countries and these goods that would benefit both countries.

ANSWER: Colombia has the comparative advantage in coffee because its opportunity cost of one pound of coffee is only 0.2 pounds of bananas while Ecuador's is 0.33 pounds of bananas. Ecuador has the comparative advantage in bananas because its opportunity cost of one pound of bananas is only three pounds of coffee while Colombia's is five pounds of bananas. If Ecuador traded one pound of bananas to Colombia for between three and five pounds of coffee, both countries could enjoy greater consumption and be better off.

REFERENCES: p. 51

TOPICS: 2.4 Specialization and Trade Can Make Everyone Better Off | Specialization and Trade Lead to Greater Wealth and Prosperity

223. How would an economist respond to the following statement: "Wanting more goods makes us greedy."

ANSWER: Economists do not view the unlimited human desire for goods and services to be an indication of "greediness." Economists assume that all individuals want more resources in order to reach greater levels of satisfaction (whether to benefit yourself, your family, or others).

POINTS: 1

REFERENCES: p. 38

TOPICS: 2.1 People Face Scarcity and Costly Trade-offs | Are Those Who Want More Greedy?

224. Explain the difference between poverty and scarcity.

ANSWER: People living in poverty have access to few resources, which limits the goods and services that can be consumed. When an individual faces scarcity it means not having enough resources to consume all that is desired (necessitating that choices be made). While not everyone lives in poverty, everyone does face scarcity. Even the rich face scarcity (since as wealth increases, so do human wants).

POINTS: 1

REFERENCES: p. 38-39

TOPICS: 2.1 People Face Scarcity and Costly Trade-offs | Does Everyone Face Scarcity?

225. Explain why each of the following is considered an economic issue:

- a. whether to spend Saturday afternoon at a football game
- b. obtaining tickets to a U2 concert
- c. your university considers your application for one of 25 available scholarships

ANSWER: Each of the following are economic issues that illustrate scarcity and the necessity of making choices:

- a. The decision as to whether to spend Saturday afternoon at a football game involves weighing the marginal expected benefit versus the marginal expected cost. There is an opportunity cost associated with going to the football game since you could spend the time in other ways, such as studying or working.
- b. Attending a U2 concert requires a sacrifice of both money and time. Individuals face a tradeoff between what could be done with the time and the dollars expended acquiring tickets and attending the concert.
- c. Since there are a limited number of scholarships and many students who would wish to receive one, the university must decide to whom to allocate these scarce scholarship resources.

REFERENCES: p. 43

TOPICS: 2.2 People Engage in Rational Decision Making and Marginal Thinking

226. Why do people commonly switch channels on their TVs when the final credits of a movie they were watching on it are being displayed?

ANSWER: Individuals will only pursue an activity if expected marginal benefits are greater than the expected marginal costs. If you perceive the marginal benefits of watching something else to be greater than watching the credit line of the movie, you may choose to switch channels.

POINTS: 1

REFERENCES: p. 43

TOPICS: 2.2 People Engage in Rational Decision Making and Marginal Thinking | Many Choices We Face Involve Marginal Thinking

227. Would it make good sense for a community to seek to reduce its levels of pollution to zero? Why or why not?

ANSWER: In general it would not make sense for a community to seek to reduce pollution levels to zero because the costs involved would exceed the benefits received.

POINTS: 1

REFERENCES: p. 43-45

TOPICS: 2.2 People Engage in Rational Decision Making and Marginal Thinking | Many Choices We Face Involve Marginal Thinking

228. Differentiate between positive and negative incentives.

ANSWER: Positive incentives either increase benefits or reduce costs and thus result in an increased level of the related activity or behavior. Negative incentives either reduce benefits or increase costs, resulting in a decreased level of the related activity or behavior.

POINTS: 1

REFERENCES: p. 47

TOPICS: 2.3 People Respond Predictably to Changes in Incentives | Positive and Negative Incentives

229. If race-car driving is dangerous, why would any rational person choose to be a race-car driver?

ANSWER: A rational person might choose to drive race cars if, after assessing the potential dangers, he or she believes the expected marginal benefit from racing outweighs the expected marginal cost.

POINTS: 1

REFERENCES: p. 43

TOPICS: 2.2 People Engage in Rational Decision Making and Marginal Thinking | Many Choices We Face Involve Marginal Thinking

230. Farmer Fred could grow wheat and barley. He could grow 75 bushels of wheat or 125 bushels of barley using the same resources on an acre of his land. The price of wheat is \$2.00 per bushel and the price of barley \$ 0.80. Show the benefits to Fred from specialization. What should he specialize in?

ANSWER: Farmer Fred could make \$150 if he grew only wheat and just \$100 if he grew only barley. By specializing in wheat production he will be better off. Even though he can produce more bushels of barley than he can bushels of wheat, his opportunity cost of producing wheat (the \$100 income sacrificed. is lower than the opportunity cost of producing barley (\$150 in sacrificed income).

TOPICS: 2.4 Specialization and Trade Can Make Everyone Better Off | The Advantages of Specialization

231. Maggie is a potter who likes to dig her own clay for producing pots, cups and other ceramic items. She is aware of two places where she can obtain the right clay for her work. The first field is quite close, just at the edge of town. The second field is 15 miles away and (since there are no access roads) requires a half-day of travel just to get there. Compare the opportunity cost of producing pots using clay from each of these fields.

ANSWER: The opportunity cost of the clay necessary for her work is higher at the second field. Maggie would have to spend more time traveling, consume more gasoline, and use extra time and energy to dig from the second field.

POINTS: 1

REFERENCES: p. 40-41

TOPICS: 2.1 People Face Scarcity and Costly Trade-offs | To Choose Is to Lose

232. Prices communicate information about the relative value of resources in the marketplace. Which of the following would cause the marginal value and, hence, the price, of oranges to rise?

- a. A freeze wipes out half of the Florida citrus groves.
- b. Orange juice is shown to reduce blood cholesterol levels.
- c. The price of grape, cranberry, and pineapple juice falls dramatically.

ANSWER: a. and b. would result in higher orange prices. The freeze in some orange groves would cause the price of the remaining oranges to increase. A stronger preference for orange juice would likely result once the cholesterol-reducing health benefits of orange juice become known, increasing the price of orange juice. A reduction in the price of substitute juices would decrease the price of oranges (as consumers switch to alternative fruit sources).
