a)  $480,000 + 96,000 = 576,000$  is the gain on revaluing Land & buildings (  $1,200,000$  less  $(720,000 - 96,000)$  )

b)  $£720,000 \times \frac{2}{3} \times 2\% = £9,600$  annual depreciation on buildings

Upto 31.3.2010 buildings have been depreciated for ten years:  $£96,000 / 9,600 = 10$  years already used.

Hence, the fair value of buildings should be depreciated by  $£20,000$  i.e  $£800,000 / 40$  years

- (d) Interest : 5% of £300,000 = £15,000
- (e) Acc. Deprn. on buildings: £240,000 opening + £24,000 in 2010 = £264,000

a) Furniture sold was used for nine months in 2011: Deprn 10% of £160,000 x 9/12 =	12,000
Accumulated Deprn to 31.3.2010: 10% of £160,000 x 1 year and nine months =	28,000
Total depreciation to the date of disposal	40,000
b) Loss on disposal of furniture: £160,000(cost) – £40,000(ac.depre) – disposal proceeds =73,000	47,000
c) Furniture Deprn. on others: 10% of £480,000 – £160,000(sold) –£40,000 fully depreciated =	28,000
d) Accum. Deprn on furniture: £106,000 + £12,000 + £28,000 – £40,000 (disposed) =	106,000
e) Deprn. on buildings: 2% of £1,200,000	24,000
f) Depreciation on vehicles:

On new vehicle : 25% of £60,000 for 4 months	£5,000
	45,000
g) Amortisation of brand name: only three years remain; digits are 3:2: 1 = 6	
Amortisation : £120,000 x 3/6 digits =	£60,000
h) Goods still on approval wrongly treated as sold:	
i) reverse sales: remove £64,000 from both sales and receivables	
ii) cost of the goods (£64,000 x 3/4 = £48,000) is added to inventory and removed from cost of sale	
i) Advertising campaign is scheduled for next period; hence its cost is capitalised.	

## 8.4 A more difficult question with asset disposal and revaluation

Statement of income			Statement of financial position – as at 30.9.2011

- a) Revaluation gain: £2,600 (new value) – (£2,100 less £280 ac.Deprn to 1.10.2010)  
= £780,000
- |   | £'000  |
|---|--------|
| Annual Deprn. based on historical cost = 2% of 2/3rd of £2,100,000 =      | 28     |
| Number of years of use of buildings until 1.10.2010 = 280 / 28 per year = | 10 yrs |
| Number of years remaining : 50 years less 10 years completed =            | 40 yrs |
| Annual depreciation based on fair value = £1,600,000 / 40 years           | 40     |
| Therefore extra depreciation arising because of revaluation ( 40 – 28 ) = | 12     |
- Therefore annually 12 of the revaluation gain is regarded as realised and transferred to current account
- b) Depreciation of the machine sold : year to 30.9.2011: 5% of £120,000 for 8 months=

## Accounting for limited companies

### Test 9.1 Accounting for share issue

**Note:** Although the question states that as at 30<sup>th</sup> June 500 shares were in arrears for the first call, on the premise that those in arrears for the Allotment money (1,000 shares) could not have paid the first call, first call should be in arrears on that date on 1,500 shares.

- a) The Share capital account would report a balance of £80,000 on 30<sup>th</sup> June 2010 and this represents the so far called up value (£8) on 10,000 shares in issue.
- b) Section 610 of the Companies Act 2006 permits any balance in the Share premium account to be applied for only:
- i) writing off the cost of bonus shares and
  - ii) writing off the expenses of and any commission paid on the same shares
- c) Accounts named would appear as follows:

#### Application and allotment account

? Cash –refund <sup>b</sup>	10,000	31.3 Cash account <sup>a</sup>	40,000

- (a) Application money on 16,000 shares @ £2/50 = £40,000
- (b) Refund on 4,000 shares @ £2/50 = £10,000
- (c) So far called up value (£11 less £1 premium) less uncalled calls (£3 and £2) on 10,000 shares =£50,000
- (d) Share premium (£11 – par value of £10) receivable along with allotment money.

- Allotment money in arrears

Augustine Benedict and Barry Elliott, *Financial Accounting: An Introduction*, 2<sup>nd</sup> Edition, Instructor's Manual

Those who applied for 12 shares received 10 shares, pro rata Accordingly those who received 1,000 shares would have applied for  $1,000 \times \frac{12}{10} = 1,200$  shares i.e. 200 more.
