

Chapter 2 Recording Business Transactions

2.1 Describe common types of accounts

There are no questions in this section.

2.2 Record the impact of business transactions on the accounting equation

1) All of the following accounts would be considered assets *except* for:

- A) Cash
- B) Common Shares
- C) Prepaid Expenses
- D) Notes Receivable

Answer: B

Diff: 2 Type: MC

L.O.: L.O. 2-2

2) The payment of an amount owed to a creditor would:

- A) increase assets
- B) increase liabilities
- C) decrease net income
- D) decrease liabilities

Answer: D

Diff: 2 Type: MC

L.O.: L.O. 2-2

3) When a company performs a service and immediately collects the cash from the customer, which of the following would occur?

- A) Net income would increase.
- B) Expenses would decrease.
- C) Assets would decrease.
- D) Shareholders' equity would decrease.

Answer: A

Diff: 2 Type: MC

L.O.: L.O. 2-2

4) Purchasing supplies and paying cash for them would:

- A) increase total assets
- B) decrease total assets
- C) have no effect on total assets
- D) increase total liabilities and shareholders' equity

Answer: C

Diff: 2 Type: MC

L.O.: L.O. 2-2

5) Paying a utility bill when received would:

- A) increase expenses
- B) increase liabilities
- C) increase owners' equity
- D) decrease revenues

Answer: A

Diff: 2 Type: MC

L.O.: L.O. 2-2

6) Borrowing money from the bank by signing a note payable would:

- A) increase shareholders' equity
- B) increase net income
- C) decrease liabilities
- D) have no effect on shareholders' equity

Answer: D

Diff: 2 Type: MC

L.O.: L.O. 2-2

7) Receiving a payment from a customer on account would:

- A) have no effect on shareholders' equity
- B) increase net income
- C) increase shareholders' equity
- D) increase liabilities

Answer: A

Diff: 2 Type: MC

L.O.: L.O. 2-2

8) The purchase of land for cash would:

- A) increase total assets
- B) decrease shareholders' equity
- C) increase the total debits on the trial balance
- D) not affect the total of debits or credits on the trial balance

Answer: D

Diff: 3 Type: MC

L.O.: L.O. 2-2

9) An owner investment of a building, valued at \$100,000 with an \$80,000 outstanding mortgage, transferring this asset into the business would:

- A) increase assets by \$20,000
- B) increase assets by \$80,000
- C) increase shareholders' equity by \$20,000
- D) increase shareholders' equity by \$100,000

Answer: C

Diff: 3 Type: MC

L.O.: L.O. 2-2

10) Performing services on account would:

- A) increase assets and liabilities
- B) increase assets and decrease shareholders' equity
- C) increase revenue and decrease shareholders' equity
- D) increase net income and shareholders' equity

Answer: D

Diff: 3 Type: MC

L.O.: L.O. 2-2

11) The collection of cash from a customer on account would:

- A) increase net income and shareholders' equity
- B) increase assets and decrease liabilities
- C) increase assets and increase net income
- D) have no effect on net income or shareholders' equity

Answer: D

Diff: 3 Type: MC

L.O.: L.O. 2-2

12) Dividends paid to the shareholders when declared will:

- A) increase assets and decrease liabilities
- B) decrease assets and increase liabilities
- C) have no effect on shareholders' equity
- D) decrease assets and decrease shareholders' equity

Answer: D

Diff: 3 Type: MC

L.O.: L.O. 2-2

13) What type of account is Prepaid Rent?

- A) a liability
- B) an expense
- C) shareholders' equity
- D) an asset

Answer: D

Diff: 2 Type: MC

L.O.: L.O. 2-2

14) The costs of operating a business are usually called:

- A) expenses
- B) liabilities
- C) assets
- D) revenues

Answer: A

Diff: 1 Type: MC

L.O.: L.O. 2-2

15) Note payable, accounts payable, and salary payable are all examples of:

- A) assets
- B) revenue
- C) expenses
- D) liabilities

Answer: D

Diff: 1 Type: MC

L.O.: L.O. 2-2

16) Which of the following business events may not be recorded in a company's general ledger?

- A) The company paid each of its employees a Christmas bonus.
- B) The company issued 100 shares of common stock.
- C) The company purchased two acres of land for future plant expansion.
- D) A lawsuit has been filed by one of the company's customers (against the company).

Answer: D

Diff: 2 Type: MC

L.O.: L.O. 2-2

17) The payment of salaries to employees when earned would:

- A) increase assets
- B) increase net income
- C) increase liabilities
- D) decrease shareholders' equity

Answer: D

Diff: 2 Type: MC

L.O.: L.O. 2-2

18) A transaction involving the cash purchase of equipment will decrease one asset account and increase another asset account.

Answer: TRUE

Diff: 2 Type: TF

L.O.: L.O. 2-2

19) A balance sheet is organized in order of the accounting equation, with liabilities first, followed by assets and shareholders' equity.

Answer: FALSE

Diff: 1 Type: TF

L.O.: L.O. 2-2

20) A balance sheet is a required financial statement that reports the financial position of the company as of a given day in time.

Answer: TRUE

Diff: 2 Type: TF

L.O.: L.O. 2-2

21) *Notes Payable* is a typical example of a liability account.

Answer: TRUE

Diff: 1 Type: TF

L.O.: L.O. 2-2

22) The account called *Accrued Liabilities* is really an expense account and not a liability account.

Answer: FALSE

Diff: 1 Type: TF

L.O.: L.O. 2-2

23) The retained earnings account represents the money invested by shareholders into the business since its inception.

Answer: FALSE

Diff: 1 Type: TF

L.O.: L.O. 2-2

24) The purchase of office equipment on account would increase an asset and decrease a liability account.

Answer: FALSE

Diff: 2 Type: TF

L.O.: L.O. 2-2

25) Analyze the following transactions. Indicate which accounts are affected and whether they will increase or decrease. Transaction (a) is completed as an example.

- a. Owner investment of cash into the business.
- b. Payment of a utility bill.
- c. Purchase of inventory for cash.
- d. Payment of an accounts payable.
- e. Performing a service on account.
- f. Collecting cash from a customer as payment on his account.

Transaction	Accounts	Increase	Decrease
a.	Cash	x	
	Common shares	x	
b.			
c.			
d.			
e.			
f.			

Answer:

Transaction	Accounts	Increase	Decrease
a.	Cash	x	
	Common shares	x	
b.	Utility expense	x	
	Cash		x
c.	Inventory	x	
	Cash		x
d.	Accounts Payable		x
	Cash		x
e.	Accounts Receivable	x	
	Service Revenue	x	
f.	Cash	x	
	Accounts Receivable		x

26) Explain the following terms in your own words and give an example of each for Humpty's Equipment Inc.

- a. asset
- b. liability
- c. shareholders' equity
- d. dividend
- e. revenue
- f. expense

Answer:

a. Assets are resources stemming from past transactions expected to provide economic benefits in the future by contributing to earning revenues. Humpty uses a significant amount of machinery and equipment to manufacture its products.

b. A liability is an obligation to provide goods or services in the future due to a past transaction. Some examples are accounts payables and loans. Humpty borrows money (loan) from several sources including PEI business development Inc.

c. Shareholders' equity is direct or indirect investment in an entity by its owners. Examples are common shares and preferred shares. Humpty issues common shares and they trade on the Toronto Stock Exchange under the symbol SNX.

d. Dividends are amounts paid to the owners from the earnings of the firm. Examples are common share dividends and preferred dividends. As of January 2014, Humpty did not declare dividends.

e. Revenues are economic benefits earned by providing goods or services to customers. Examples are sales and fees earned.

f. Expenses are costs incurred to earn revenue. Examples include cost of goods sold and wages.

28) Slick Corporation has summarized financial statements as shown below. Fill in the blank areas to complete the financial statements. Begin in 2012 and move forward from there.

Slick Corporation
For the Year Ended June 30

	2014	2013	2012
Revenues	\$	\$2,100,000	\$2,500,000
Expenses	1,470,000	1,430,000	
Net Income	130,000		550,000
Retained Earnings beginning			0
Dividends declared		336,000	
Retained earnings end	350,000		50,000
Common Shares end		250,000	250,000
Liabilities end	200,000	180,000	
Assets end	830,000		430,000

Answer:

Slick Corporation
For the Year Ended June 30

	2014	2013	2012
Revenues	\$1,600,000	\$2,100,000	\$2,500,000
Expenses	<u>1,470,000</u>	<u>1,430,000</u>	1,950,000
Net Income	130,000	670,000	550,000
Retained Earnings beginning	384,000	50,000	0
Dividends declared	164,000	336,000	500,000
Retained earnings end	350,000	384,000	50,000
Common Shares end	280,000	250,000	250,000
Liabilities end	200,000	180,000	130,000
Assets end	830,000	814,000	430,000

30) Prepare a Statement of Retained Earnings for the year ended June 30, 2014.

Chedacorn was incorporated on July 1, 2012 by 10 shareholders who each invested \$100,000 in cash in exchange for common shares. Chedacorn's year end is June 30th. In its first year of business Chedacorn had a net income of \$243,750. For its years ended June 30, 2013 and 2014, its second and third years of operation, Chedacorn reported net income of \$472,500 and \$560,000 respectively. In its first year Chedacorn did not pay any dividends, but in fiscal 2013 it paid \$62,500 in dividends and in 2014 it paid \$100,000 in dividends.

Answer: Chedacorn Corporation
Statement of Retained Earnings
For the year ended June 30, 2014

Retained Earnings, July 1, 2013	\$ 653,750
Net income for the year	560,000
Less dividends	<u>(100,000)</u>
Retained Earnings, June 30, 2014	<u>\$ 1,113,750</u>

Note: To solve the exercise, retained earnings on July 1, 2013 must be calculated. This amount is \$243,750 + \$472,500 - \$62,500.

L.O.: L.O. 2-2

31) What criteria are used to determine if a transaction has occurred?

Answer: If the event affects the entity's financial position and can be reliably recorded, then a transaction has occurred. If both of these criteria are not met, a transaction has not occurred. Some business events do not lead to transactions, such as the retirement of an executive officer in the company, or changing the company's logo. However, if these events have some financial impact, then a transaction has occurred.

53) Define the term *account* and describe the relationship between accounts and the ledger.

Answer: An account is a record of the increases and decreases to a particular asset, liability, or shareholders' equity item. All the accounts grouped together are referred to as the ledger. The groupings of accounts usually follow the order of the accounts as listed on balance sheet, and then the income statement. Sometimes the order is based on the chart of accounts (although this is not mandatory).

28) Where is information for each account stored?

Answer: Information for each account is stored in the ledger. The ledger becomes an accounting history for each account, since it details all of the transactions for each account. It also contains the dates of the transactions and references to the journal from which the transactions have been posted.

Diff: 1 Type: ES

L.O.: L.O. 2-4

29) Describe the journalizing process including its steps.

Answer: The journal is used to keep a chronological record of the organizations transactions. The journalizing process involves first determining each account affected by the transaction including its type. Next determine if each account is increased or decreased then apply the rules of debit or credits to each account. The last step is using this information to record the transaction in the journal ensuring all debits and credits balance. A description of the transaction is also included in the journal entry.

41) An inexperienced accountant prepared the following trial balance on December 31, 2014, for the Chalet Corporation. Prepare a corrected trial balance based on the incorrect trial balance and the additional data.

Chalet Corporation		
Trial Balance		
December 31, 2014		
	<u>Debit</u>	<u>Credit</u>
Cash	\$28,700	
Accounts Receivable		\$33,600
Prepaid Insurance	7,400	
Supplies	1,600	
Land	45,000	
Equipment	78,300	
Accounts Payable		25,000
Note Payable	65,000	
Common Shares		30,000
Retained Earnings		34,000
Dividends	19,300	
Service Revenue		82,000
Salary Expense	38,000	
Utilities Expense		18,500
Insurance Expense	<u>10,500</u>	
Total	<u>\$293,800</u>	<u>\$223,100</u>

Additional data:

1. Cash is overstated by \$5,700.
2. Note Payable is understated by \$7,200.
3. All accounts have a normal balance.
4. Service Revenue equals three times Salary Expense.

Answer: Chalet Corporation
Trial Balance
December 31, 2014

	<u>Debit</u>	<u>Credit</u>
Cash	\$23,000	
Accounts Receivable	\$33,600	
Prepaid Insurance	7,400	
Supplies	1,600	
Land	45,000	
Equipment	78,300	
Accounts Payable		25,000
Note Payable		72,200
Common Shares		30,000
Retained Earnings		34,000
Dividends	19,300	
Service Revenue		114,000
Salary Expense	38,000

L.O.: L.O. 2-5

42) Fox Ltd. had the following trial balance on October 31, 2014.

Fox Ltd.		
Trial Balance		
October 31, 2014		
	<u>Debit</u>	<u>Credit</u>
Cash	\$56,500	
Accounts receivable	20,000	
Notes receivable	5,000	
Land	80,000	
Accounts payable		\$10,200
Note payable		15,000
Common shares		105,500
Service revenue		34,000
Salary expense	12,000	
Advertising expense	<u>5,000</u>	
	<u>\$178,500</u>	<u>\$164,700</u>

The following errors caused the trial balance not to balance:

- a. Recorded a \$2,000 debit to Note Payable as a debit to Note Receivable.
- b. Posted a \$3,000 credit to Accounts Payable as \$300.
- c. Recorded a cash revenue transaction by debiting Cash for \$6,000 and crediting Accounts Receivable for \$6,000.
- d. The Common Shares account is understated by \$11,100.

Prepare a corrected trial balance as of October 31, 2014. All accounts have a normal balance.

Answer:

Fox Ltd.		
Trial Balance		
October 31, 2014		
	<u>Debit</u>	<u>Credit</u>

47) Identify the normal balance for asset and liability accounts. What is the reasoning behind the "normal balances" for these accounts?

Answer: Using a T-account format, the normal balance of any account is the side that increases the balance in the account. For asset accounts the normal balance would be the debit side of the T-account. Asset accounts are often referred to as "debit-balance accounts." Crediting a liability account increases its balance, so it has a normal balance of a credit. Liability accounts are called "credit-balance accounts."

The reason why assets are debit-balance accounts and liabilities are credit-balance accounts is caused by the accounting equation. "Assets equal liabilities plus shareholders' equity" means that asset and liability accounts must have opposite normal balances for the equation to balance.

Diff: 2 Type: ES

L.O.: L.O. 2-5

48) Identify the normal balance for the Retained Earnings account and expense accounts. What is the reasoning behind the "normal balances" for these accounts?

Answer: Using a T-account format, the normal balance of any account is the side that increases the balance in the account. For the Retained Earnings account, its normal balance would be the credit side of the T-account. The Retained Earnings account is referred to as a "credit-balance account." Debiting an expense account increases its balance, so it has a normal balance of a debit. Expense accounts are called "debit-balance accounts."

The reason why the Retained Earnings account is a credit-balance account and expense accounts are debit-balance accounts is caused by the accounting equation. "Assets equal liabilities plus shareholders' equity" means that the Retained Earnings account must have a credit balance in order for the equation to balance.

Expense accounts are deducted from revenue accounts to obtain net income (or net loss). Revenue accounts carry a normal credit balance, and therefore expense accounts must carry a normal debit balance for us to obtain net income or loss. Net income increases the Retained Earnings credit balance account. A net loss for the period would decrease the Retained Earnings account.

49) Describe what is listed on a trial balance.

Answer: The trial balance lists all the company's accounts (i.e., assets, liabilities, owners' equity, revenues, and expenses) and their balances as of a specific date. This information is obtained from the ledger.
