## Instructor's Manual Problem Set

Solutions can be found in the accompanying Excel files. Note that if you wish to see all of the formulas at once, you may use the CTRL+` (Control plus grave accent) shortcut key to toggle them on or off.

1. Using the data presented below for Blue Sky Inc.:

|  | $\mathbf{2 0 1 7}$ | $\mathbf{2 0 1 6}$ |
| :--- | ---: | ---: |
| Sales | $\$ 7,550,000$ | $\$ 6,150,000$ |

| Additional Paid-in-Capital | 600,000 | 500,000 |
| Retained Earnings | 548,000 | 500,000 |

a) Create Blue Sky's income statement and balance sheet using formulas wherever possible. Each statement should be on a separate worksheet. Improve the readability of the data by using the format explained on page 49, so that Excel will display the numbers as if they had been divided by 1,000 . Make the appropriate note on the heading of each financial statement.
b) On another worksheet, create a statement of cash flows for 2017. All formulas should be linked directly to the source on previous worksheets.
c) Using Excel's outlining feature, create an outline on the balance sheet that, when collapsed, shows only the subtotals for each section.
2. Using the data from the previous problem:
a) Create a common-size income statement and balance sheet for 2017 and 2016. These statements should be created on a separate worksheet with all formulas linked directly to the income statement and balance sheet.
b) Using the common-size income statement for 2017, create a forecasted income statement for 2018 assuming that each item is expected to remain in the same proportion as in 2017. The forecasted sales for 2018 are $\$ 8,500,000$.

a) Recreate the income statement and balance sheet by filling in the question marks with formulas. Each statement should be on a separate worksheet. Try to duplicate the formatting exactly. Note that in $2016,60 \%$ of earnings were paid to shareholders as dividends.
b) On another worksheet, create a statement of cash flows for 2017. Use formulas linked directly to the source on previous worksheets instead of numbers.
c) Create a common-size income statement and balance sheet for 2017 and 2016. These statements should be created on a separate worksheet with all formulas linked directly to the income statement and balance sheet.
4. Dragon Telecommunications Inc. wants to create forecasted financial statements for $\mathbf{2 0 1 8}$ based on its accounting data in 2017.

In 2017 total revenue was $\$ 1,550,000$; cost of goods sold was $\$ 1,250,000$; selling and G\&A expenses were $\$ 110,000$; depreciation expense was $\$ 15,000$; interest expense was $\$ 25,000$; the average tax rate was $35 \%$, and the number of shares outstanding was $\mathbf{8 0 , 0 0 0}$.

Also, in 2017 Dragon had cash of $\mathbf{\$ 2 0 , 0 0 0}$; accounts receivable of $\mathbf{\$ 1 2 0 , 0 0 0}$; inventory of $\mathbf{\$ 2 2 0 , 0 0 0}$; plant \& equipment of $\mathbf{\$ 1 , 1 5 0 , 0 0 0}$ with an accumulated depreciation of $\mathbf{\$ 2 5 0 , 0 0 0}$. Accounts payable, notes payable, long-term debt, common stock, additional paid-in-capital, and retained earnings represented $\mathbf{7 \%}, \mathbf{0 . 5 \%}, \mathbf{2 0 \%}, \mathbf{4 4 . 5 \%}, \mathbf{1 2 \%}$, and $16 \%$ of total assets, respectively.

For 2018, Dragon expects a $\mathbf{2 5 \%}$ increase in total revenue, while cost of goods sold and selling and G\&A expenses are expected to remain at the same proportion of total revenue as in 2017. Both total plant and equipment and depreciation expense will increase by $\mathbf{1 2 \%}$. Similarly, longterm debt is forecasted and interest expense will increase by $20 \%$, but the tax rate and the number of shares outstanding will remain constant.

Additionally accounts receivable, inventory, accounts payable, and notes payable are expected to increase $15 \%$, while common stock and paid-in-capital will increase by $25 \%$. The dividend policy in 2018 will be based on a dividend payout ratio of $50 \%$. In other words, $50 \%$ of forecasted earnings will be paid to shareholders as dividends.
a) Using these projections, create the forecasted 2018 income statement, balance sheet, and statement of cash flows for Dragon Telecommunications Inc. Each statement should be on a separate worksheet.
