- 56. The crowding-out effect occurs when:
 - a. foreign investors crowd out U.S. investors in the market for loanable funds.
 - b. the federal government's demand for loanable funds due to a higher budget deficit crowds out the private demand in the market for loanable funds.
 - c. institutional investors crowd out individual investors in the market for loanable funds.
 - d. firms and municipal governments crowd out households in the market for loanable funds.
