A) True B) False

Answer: A

25) According to the UCR Program, juvenile murder rates increased greatly between 1993 and 2003.

A) True

B) False

Answer: B

26) Official arrest statistics show that adolescent males are involved in more frequent and more serious delinquent acts than are adolescent females.

A) True

B) False

Answer: A

27) Studies based on official statistics have reported that African Americans are overrepresented in arrest, conviction, and incarceration rates relative to their population base.

A) True

B) False

Answer: A

28) Victimization data reveal that adolescent males are more likely to be victims than are adolescent females and that their victimization is shaped by their gender, race, and social class.

A) True

B) False

Answer: A

29) Research traditionally has been unable to find a clear relationship between social class and delinquency.

A) True

B) False

Answer: A

30) Several studies have found that the age of onset is one of the best predictors of the length and intensity of delinquent careers.

A) True

B) False

Answer: A

31) Young people who begin offending early tend to have long delinquent careers; and at least some youthful offenders progress to increasingly serious forms of delinquency, with a handful of youthful offenders going on to become career offenders.

A) True

B) False

Answer: A

- 32) A juvenile who engages repeatedly in delinquent behavior is a "chronic offender." The Philadelphia cohort studies defined chronic offenders as youths who had committed five or more delinquent offenses. Other studies use this term to refer to youth involved in serious and repetitive offenses.
 - A) True
 - B) False

Answer: A

33) Homicide death rates of males 13 to 17 decreased in the 1990s.

- A) True
- B) False

Answer: B

34) The Boston Gun Project has been one of the least successful efforts at reducing firearm violence in major cities.

A) True

B) False

Answer: B

35) Good communications between the community and the police is one strategy to reduce juvenile gun violence.

A) True

B) False

Answer: A

36) The easy availability of handguns has contributed to a growing trend in youth violence in this country.

- A) True
- B) False

Answer: A

SHORT ANSWER. Write the word or phrase that best completes each statement or answers the question.

37) The term ______ of delinquency refers to the percentage of the juvenile population involved in delinquent behavior.Answer: prevalence

38) The term ______ of delinquency refers to the frequency with which delinquent behavior occurs. Answer: incidences

- 39) The extent to which a questionnaire or interview yields the same answers from the same juveniles when they are questioned two or more times is called ______. Answer: reliability
- 40) One major difficulty with cohort studies is that their findings cannot be ______ confidently beyond the persons in the cohort.Answer: generalized
- 41) Most studies using self-report measures have found that African Americans are more likely to be __________ delinquent but are not significantly worse than Caucasians in their prevalence or frequency of offending. Answer: adjudicated
- 42) Victimization data shows that adolescent ______ are victimized more often than adolescents of the other gender.Answer: females
- 43) The Seattle Social Development Project data showed that an early age of onset predicted a ______ rate of offending in both self-reports and court referrals.Answer: high
- 44) The term escalation of offenses refers to a(n) _____ in the frequency and severity of an individual's offenses.Answer: increase
- 45) A small number of chronic juvenile offenders accounts for a ______ share of all crimes. Answer: disproportionate
- 46) Research shows that ______ is strongly predictive of premature, unstable, precarious, and unsatisfied conditions in multiple life domains.
 Answer: institutionalization

MATCHING. Choose the item in column 2 that best matches each item in column 1.

Please match each concept or term with its definition.
47) Prevalence of delinquency Answer: B
48) Incidence of delinquency Answer: A
49) Hidden delinquency Answer: C
49) Hidden delinquency
41) The frequency with which delinquent behavior.
42) Answer: C
43) The percentage of the juvenile population involved in delinquent behavior.
44) C) Any unobserved or unreported delinquency Match each major source of data on delinquency with its type of information.

50) Uniform Crime Reporting Program	A) Victimization data
Answer: C	
51) National Crime Victimization Survey	 B) Individual self-reports of involvement in delinquency and crime
Answer: A	
52) Inversile Court Statistics	C) The FBI's program for compiling annual data about crimes committed in the United
52) Juvenile Court Statistics	
Answer: D	States.
53) Self-report surveys	D) Delinquency cases processed in federal
Answer: B	courts

ESSAY. Write your answer in the space provided or on a separate sheet of paper.

54) Discuss the various weaknesses attributed to the Uniform Crime Reporting Program as a measure of crime.

Answer: The answer should include the following points:

- Most crimes go unreported.
- Only serious property and personal crimes of juveniles are acted upon.
- UCR statistics may tell more about police policy than about crime.
- Data may not be entirely reliable.

55) Discuss the findings of various studies on racial/ethnic background and delinquent behavior.

Answer: The answer should include the following points:

• African Americans are overrepresented in arrest, conviction, and incarceration relative to their population base.

• African American, Hispanic, and Native American adolescents were involved in significantly higher levels of serious violence than were Caucasians.

• African American adolescents experience and are involved in higher rates of violence, especially armed violence. However, they do not have higher rates of property or drug crime.

• A combination of neighborhood context, socioeconomic status, and social psychological processes can explain most of the relationship between race and violence as well as ethnicity and violence.

• School-level characteristics were related to overall discipline levers, which is consistent with a racial threat hypothesis.

• Ethno-racial inequality in neighborhood crime rates is an outgrowth of racial residential segregation.

56) Discuss the various factors that may lead to juvenile offenders continuing on into adult criminal behavior.

Answer: The answer should include the following points:

- Age of onset
- Continuation or persistence
- Escalation of offenses
- Specialization of offenses
- Tendency toward chronic offending
- Length of criminal career
- Desistance or termination of offending

Juvenile Delinquency 3rd Edition Bartollas Test Bank

- 57) Discuss the relationship between guns and youth violence.
 - Answer: The answer should include the following points:
 - Homicide death rates of males thirteen to seventeen years old often reflect gun use.
 - Youths with guns tend to live in communities with high prevalence of gun ownership.
 - Youths with guns are more likely to engage in serious assaults and robberies than others.
 - Youths involved in drugs are more likely to carry guns than others and to believe that guns are necessary for their protection.
 - Youths from gangs are more probable to carry guns.
- 58) What is the importance of both reliability and validity to the measurement and nature of delinquency?
 - Answer: Answers may include the following points:
 - Validity: The extent to which a research instrument measures what it says it measures.
 - Reliability: The extent to which a questionnaire or interview yields the same answers from the same juveniles when they are questioned two or more times.
- 59) The term "hidden delinquency" refers to any unobserved or unreported delinquency. What delinquent acts do you think are reported the LEAST? Explain and justify your choices.

Answer: Answers will vary per individual.
