Ans: T

Cognitive Domain: Comprehension

Answer Location: Stepping Out of the Shadows

Difficulty Level: Easy

Short Answer/Essay

51. Name the three indicators of leader selfishness.

Ans: See section on Selfishness

Cognitive Domain: Knowledge

Answer Location: Implications and Applications

Difficulty Level: Easy

52. Name and define two types of faulty beliefs that can lead to poor ethical decisions.

Ans: (1) unsound assumptions and (2) failure of moral imagination.

Cognitive Domain: Knowledge

Answer Location: Faulty Decision-Making

Difficulty Level: Easy

53. Define moral imagination and explain how it can be inactive or overactive.

Ans: Moral imagination—sensitivity to moral issues and options—is key to ethical behavior and works hand in hand with moral reasoning in the decision-making process.

Cognitive Domain: Comprehension

Answer Location: Failure of Moral Imagination

Difficulty Level: Medium

54. Identify the dangers posed by Machiavellianism.

Ans: Machiavellian leaders put their groups in danger. They may be less qualified to lead than others who are not as skilled as they are in impression management. They are more likely to engage in unethical practices that put the organization at risk because they want to succeed at any cost. If followers suspect that their supervisors are manipulating them, they are less trusting and cooperative, which can make the organization less productive.

Cognitive Domain: Comprehension

Answer Location: Personality Disorders

Difficulty Level: Medium

55. Think of a past or current leader who cast(s) shadows. Which of the unhealthy motivations contributed to this leader's unethical behavior?

Ans: Varies

Cognitive Domain: Application

Difficulty Level: Hard

56. Describe a time when you were victimized by your faulty decision-making. Identify the faulty assumptions you followed and how you might avoid such traps in the future.

Ans: Varies

Cognitive Domain: Application

Difficulty Level: Hard

57. You are a corporate ethics trainer. What criteria will you use for assessing the ethical progress of those attending your workshops?

Ans: Varies

Cognitive Domain: Application

Difficulty Level: Hard

58. Describe a leader who acted unethically because she or he suffered from an inactive or overactive moral imagination. Explain why her or his moral imagination failed what she or he should have done differently.

Ans: Varies

Cognitive Domain: Application

Difficulty Level: Hard

59. Describe how socialization can encourage employees to act unethically.

Ans: Varies

Cognitive Domain: Analysis

Difficulty Level: Medium
