

## Chapter 2: Analyzing Business Transactions

---

### TRUE/FALSE

1. When a company receives a product previously ordered, a recordable transaction has occurred.

ANS: T                      PTS: 1                      OBJ: LO1  
NAT: AACSB correlation: reflective                      LOC: Learning Type: Comprehension  
KEY: business transactions

2. When a business hires a new employee, a recordable transaction has occurred.

ANS: F                      PTS: 1                      OBJ: LO1  
NAT: AACSB correlation: reflective                      LOC: Learning Type: Comprehension  
KEY: business transactions

3. The valuation issue deals with how the components of a transaction should be categorized.

ANS: F                      PTS: 1                      OBJ: LO1  
NAT: AACSB correlation: reflective                      LOC: Learning Type: Recall  
KEY: business transactions

4. In accounting, to *recognize* means to record a transaction or event.

ANS: T                      PTS: 1                      OBJ: LO1  
NAT: AACSB correlation: reflective                      LOC: Learning Type: Recall  
KEY: recording transactions

5. Purchase requisitions are recognized in the accounting records.

ANS: F                      PTS: 1                      OBJ: LO1  
NAT: AACSB correlation: reflective                      LOC: Learning Type: Comprehension  
KEY: recording transactions

6. When a company purchases goods that it will resell, it must record the goods in an expense account.

ANS: F                      PTS: 1                      OBJ: LO1  
NAT: AACSB correlation: reflective                      LOC: Learning Type: Comprehension  
KEY: recording transactions

7. The cost principle is a solution to the recognition issue.

ANS: F                      PTS: 1                      OBJ: LO1  
NAT: AACSB correlation: reflective                      LOC: Learning Type: Recall  
KEY: accounting period issue

8. The recognition issue deals with *when* a user of financial statements should use accounting information.

ANS: F                      PTS: 1                      OBJ: LO1  
NAT: AACSB correlation: reflective                      LOC: Learning Type: Recall  
KEY: accounting period issue

NAT: AACSB correlation: reflective      LOC: Learning Type: Recall  
KEY: bookkeeping

18. An increase in an asset is recorded by a debit.

ANS: T                      PTS: 1                      OBJ: LO2  
NAT: AACSB correlation: reflective      LOC: Learning Type: Recall  
KEY: bookkeeping

19. The double-entry system is possible because all business transactions have two equal and opposite aspects.

ANS: T                      PTS: 1                      OBJ: LO2  
NAT: AACSB correlation: reflective      LOC: Learning Type: Recall  
KEY: bookkeeping

20. A decrease in the Owner's Capital account is recorded with a credit.

ANS: F                      PTS: 1                      OBJ: LO2  
NAT: AACSB correlation: reflective      LOC: Learning Type: Recall  
KEY: bookkeeping

21. An increase in revenue is recorded with a credit.

ANS: T                      PTS: 1                      OBJ: LO2  
NAT: AACSB correlation: reflective      LOC: Learning Type: Recall  
KEY: bookkeeping

22. Owner's withdrawals should appear on the statement of owner's equity.

ANS: T                      PTS: 1                      OBJ: LO2  
NAT: AACSB correlation: reflective      LOC: Learning Type: Recall  
KEY: bookkeeping| owner's equity

23. The Owner's Withdrawals account has a normal credit balance.

ANS: F                      PTS: 1                      OBJ: LO2  
NAT: AACSB correlation: reflective      LOC: Learning Type: Recall  
KEY: bookkeeping

24. Expenses have a normal credit balance.

ANS: F                      PTS: 1                      OBJ: LO2  
NAT: AACSB correlation: reflective      LOC: Learning Type: Recall  
KEY: bookkeeping

25. The Owner's Capital account has a normal debit balance.

ANS: F                      PTS: 1                      OBJ: LO2  
NAT: AACSB correlation: reflective      LOC: Learning Type: Recall  
KEY: bookkeeping

26. Accounts Payable has a normal credit balance.

ANS: T                   PTS: 1                   OBJ: LO2  
NAT: AACSB correlation: reflective       LOC: Learning Type: Recall  
KEY: bookkeeping

27. When the owner makes an investment, his or her Capital account is debited.

ANS: F                   PTS: 1                   OBJ: LO3  
NAT: AACSB correlation: reflective       LOC: Learning Type: Recall  
KEY: bookkeeping

28. When a withdrawal is made, the Owner's Withdrawals account is debited and Cash is credited.

ANS: T                   PTS: 1                   OBJ: LO3  
NAT: AACSB correlation: reflective       LOC: Learning Type: Recall  
KEY: bookkeeping

29. Liabilities are established with debits and eliminated with credits.

ANS: F                   PTS: 1                   OBJ: LO3  
NAT: AACSB correlation: reflective       LOC: Learning Type: Recall  
KEY: bookkeeping

30. Generally, before Accounts Receivable is debited, it is credited.

ANS: F                   PTS: 1                   OBJ: LO3  
NAT: AACSB correlation: reflective       LOC: Learning Type: Comprehension  
KEY: bookkeeping

31. Generally, before Accounts Payable is debited, it is credited.

ANS: T                   PTS: 1                   OBJ: LO3  
NAT: AACSB correlation: reflective       LOC: Learning Type: Comprehension  
KEY: bookkeeping

32. When payment is received for services not yet rendered, no entry is recorded until that service has been rendered.

ANS: F                   PTS: 1                   OBJ: LO3  
NAT: AACSB correlation: reflective       LOC: Learning Type: Recall  
KEY: business transitions

33. When revenue has been earned, no entry is recorded until the related cash has been collected.

ANS: F                   PTS: 1                   OBJ: LO3  
NAT: AACSB correlation: reflective       LOC: Learning Type: Recall  
KEY: business transitions

34. A contract is an example of a source document.

ANS: T                   PTS: 1                   OBJ: LO3  
NAT: AACSB correlation: reflective       LOC: Learning Type: Comprehension  
KEY: business transitions

35. A basic storage unit for accounting data is the account.

ANS: T                   PTS: 1                   OBJ: LO2  
NAT: AACSB correlation: reflective           LOC: Learning Type: Recall  
KEY: bookkeeping

36. In a trial balance, all debits are listed before all credits.

ANS: F                   PTS: 1                   OBJ: LO4  
NAT: AACSB correlation: reflective           LOC: Learning Type: Recall  
KEY: bookkeeping

37. A trial balance is normally prepared at the end of the day.

ANS: F                   PTS: 1                   OBJ: LO4  
NAT: AACSB correlation: reflective           LOC: Learning Type: Recall  
KEY: bookkeeping

38. When the columns of the trial balance equal each other, it means that no errors have occurred in recording and posting the transactions.

ANS: F                   PTS: 1                   OBJ: LO4  
NAT: AACSB correlation: reflective           LOC: Learning Type: Recall  
KEY: bookkeeping

39. A transposition error will cause the trial balance to be out of balance by an amount that is evenly divisible by nine.

ANS: T                   PTS: 1                   OBJ: LO4  
NAT: AACSB correlation: reflective           LOC: Learning Type: Recall  
KEY: bookkeeping

40. Recording an account with a debit balance as a credit, or vice versa, will cause the trial balance to be out of balance by an amount that is evenly divisible by two.

ANS: T                   PTS: 1                   OBJ: LO4  
NAT: AACSB correlation: reflective           LOC: Learning Type: Recall  
KEY: bookkeeping

41. The amount of profit would always be equal to the ending cash balance.

ANS: F                   PTS: 1                   OBJ: LO5  
NAT: AACSB correlation: reflective           LOC: Learning Type: Recall  
KEY: profitability

42. One can obtain a clear picture of a company's liquidity by referring to its income statement.

ANS: F                   PTS: 1                   OBJ: LO5  
NAT: AACSB correlation: reflective           LOC: Learning Type: Recall  
KEY: income statement

43. One can obtain a clear picture of a company's liquidity by referring to its statement of cash flows.

ANS: T                   PTS: 1                   OBJ: LO5  
NAT: AACSB correlation: reflective           LOC: Learning Type: Recall

KEY: statement of cash flows

44. Revenue should be recorded when it has been earned, not when the related cash has been collected.

ANS: T                      PTS: 1                      OBJ: LO5  
NAT: AACSB correlation: reflective                      LOC: Learning Type: Recall  
KEY: accounting period issue

45. Expenses should be recorded when they are paid, not when they have been incurred.

ANS: F                      PTS: 1                      OBJ: LO5  
NAT: AACSB correlation: reflective                      LOC: Learning Type: Recall  
KEY: accounting period issue

46. A net income of \$10,000 means that the business received \$10,000 more in cash from its customers than it spent to run the business.

ANS: F                      PTS: 1                      OBJ: LO5  
NAT: AACSB correlation: reflective                      LOC: Learning Type: Comprehension  
KEY: net income

47. Accounts Receivable and Accounts Payable are used when there is a time delay between a transaction and its related cash flow.

ANS: T                      PTS: 1                      OBJ: LO5  
NAT: AACSB correlation: reflective                      LOC: Learning Type: Comprehension  
KEY: accounts receivable

48. The journal is a chronological record of all transactions.

ANS: T                      PTS: 1                      OBJ: SO6  
NAT: AACSB correlation: reflective                      LOC: Learning Type: Recall  
KEY: bookkeeping

49. Entering transactions into the journal is called *posting*.

ANS: F                      PTS: 1                      OBJ: SO6  
NAT: AACSB correlation: reflective                      LOC: Learning Type: Recall  
KEY: bookkeeping

50. In a journal entry, assets are always recorded before liabilities.

ANS: F                      PTS: 1                      OBJ: SO6  
NAT: AACSB correlation: reflective                      LOC: Learning Type: Recall  
KEY: bookkeeping

51. In a journal entry, credits are always indented.

ANS: T                      PTS: 1                      OBJ: SO6  
NAT: AACSB correlation: reflective                      LOC: Learning Type: Recall  
KEY: bookkeeping

52. In a journal entry, the Post. Ref. column is left blank until the entry has been posted.

ANS: T                   PTS: 1                   OBJ: SO6  
NAT: AACSB correlation: reflective           LOC: Learning Type: Recall  
KEY: bookkeeping

53. It is sometimes correct for a compound entry's debit totals and credit totals to be unequal.

ANS: F                   PTS: 1                   OBJ: SO6  
NAT: AACSB correlation: reflective           LOC: Learning Type: Recall  
KEY: bookkeeping

54. The ledger account form has a Balance column.

ANS: T                   PTS: 1                   OBJ: SO6  
NAT: AACSB correlation: reflective           LOC: Learning Type: Recall  
KEY: bookkeeping

55. One might see "J5" correctly placed in the Post. Ref. column of the journal.

ANS: F                   PTS: 1                   OBJ: SO6  
NAT: AACSB correlation: reflective           LOC: Learning Type: Recall  
KEY: bookkeeping

56. Despite the advantages of a computer accounting information system, posting still must be done manually.

ANS: F                   PTS: 1                   OBJ: SO6  
NAT: AACSB correlation: reflective           LOC: Learning Type: Comprehension  
KEY: computerized accounting systems

57. Journal entries are typically posted to the ledger only at the end of the year.

ANS: F                   PTS: 1                   OBJ: SO6  
NAT: AACSB correlation: reflective           LOC: Learning Type: Recall  
KEY: bookkeeping

58. In a financial report, a double line is placed below the final total(s).

ANS: T                   PTS: 1                   OBJ: SO6  
NAT: AACSB correlation: reflective           LOC: Learning Type: Recall  
KEY: bookkeeping

59. Another name for the *ledger* is the book of *original entry*.

ANS: F                   PTS: 1                   OBJ: SO6  
NAT: AACSB correlation: reflective           LOC: Learning Type: Recall  
KEY: bookkeeping

60. The chart of accounts makes finding accounts in the ledger easier.

ANS: T                   PTS: 1                   OBJ: SO6  
NAT: AACSB correlation: reflective           LOC: Learning Type: Recall  
KEY: bookkeeping

61. All companies use the same standard set of accounts.

ANS: F                   PTS: 1                   OBJ: SO6  
NAT: AACSB correlation: reflective           LOC: Learning Type: Recall  
KEY: accounts

62. The accounts in a chart of accounts are normally listed in alphabetical order.

ANS: F                   PTS: 1                   OBJ: SO6  
NAT: AACSB correlation: reflective           LOC: Learning Type: Recall  
KEY: accounts

63. The numbering scheme of a chart of accounts should contain no gaps.

ANS: F                   PTS: 1                   OBJ: SO6  
NAT: AACSB correlation: reflective           LOC: Learning Type: Recall  
KEY: accounts

64. Wages payable is a type of expense.

ANS: F                   PTS: 1                   OBJ: SO6  
NAT: AACSB correlation: reflective           LOC: Learning Type: Recall  
KEY: accounts

65. An owner's withdrawals are classified as an expense.

ANS: F                   PTS: 1                   OBJ: SO6  
NAT: AACSB correlation: reflective           LOC: Learning Type: Recall  
KEY: accounts

66. Unearned revenues are classified as liabilities on the balance sheet.

ANS: T                   PTS: 1                   OBJ: SO6  
NAT: AACSB correlation: reflective           LOC: Learning Type: Recall  
KEY: accounts

67. Another word for expense is *debt*.

ANS: F                   PTS: 1                   OBJ: SO6  
NAT: AACSB correlation: reflective           LOC: Learning Type: Recall  
KEY: accounts

68. The account Office Supplies is classified as an expense.

ANS: F                   PTS: 1                   OBJ: SO6  
NAT: AACSB correlation: reflective           LOC: Learning Type: Recall  
KEY: accounts

69. Land and buildings may be combined into one account.

ANS: F                   PTS: 1                   OBJ: SO6  
NAT: AACSB correlation: reflective           LOC: Learning Type: Recall  
KEY: accounts

70. Dollar signs are not used in journals and ledgers.

ANS: T                   PTS: 1                   OBJ: SO6  
NAT: AACSB correlation: reflective           LOC: Learning Type: Recall  
KEY: bookkeeping

### **MULTIPLE CHOICE**

1. When a business records revenue before it has been earned, it has violated the measurement issue of
- recognition.
  - evaluation.
  - classification.
  - valuation.

ANS: A                   PTS: 1                   OBJ: LO1  
NAT: AACSB correlation: reflective           LOC: Learning Type: Comprehension  
KEY: accounting period issue

2. When a business reports an asset at an inflated dollar amount, it has violated the measurement issue of
- recognition.
  - valuation.
  - classification.
  - realization.

ANS: B                   PTS: 1                   OBJ: LO1  
NAT: AACSB correlation: reflective           LOC: Learning Type: Comprehension  
KEY: assets

3. When a business erroneously records expenses as assets, it has violated the measurement issue of
- communication.
  - classification.
  - valuation.
  - recognition.

ANS: B                   PTS: 1                   OBJ: LO1  
NAT: AACSB correlation: reflective           LOC: Learning Type: Comprehension  
KEY: assets

4. Which of the following is a business event that is not considered a recordable transaction?
- A company receives a product previously ordered.
  - A company pays an employee for work performed.
  - A customer inquires about the availability of a service.
  - A customer purchases a service.

ANS: C                   PTS: 1                   OBJ: LO1  
NAT: AACSB correlation: reflective           LOC: Learning Type: Comprehension  
KEY: business transactions

5. Which of the following is a business event that is considered a recordable transaction?
- A company hires a new employee.
  - A customer purchases merchandise.
  - A company orders a product from a supplier.
  - An employee sends a purchase requisition to the purchasing department.

ANS: B                   PTS: 1                   OBJ: LO1  
NAT: AACSB correlation: reflective           LOC: Learning Type: Comprehension

KEY: business transactions

6. A purchase is recognized in the accounting records when
- payment is made for the item purchased.
  - the purchase requisition is sent to the purchasing department.
  - title transfers from the seller to the buyer.
  - the buyer receives the seller's bill.

ANS: C                   PTS: 1                   OBJ: LO1  
NAT: AACSB correlation: reflective           LOC: Learning Type: Recall  
KEY: accounting period issue

7. Which of the following is *not* a measurement issue in accounting?
- When to record a business transaction
  - How to classify the items of a business transaction
  - What value to place on a business transaction
  - Where to record a business transaction

ANS: D                   PTS: 1                   OBJ: LO1  
NAT: AACSB correlation: reflective           LOC: Learning Type: Recall  
KEY: measurement issues

8. Which of the following is an illustration of the classification issue?
- At what amount should an old machine be shown on the balance sheet?
  - At what point should the purchase of art supplies be recorded?
  - Should tools be recorded as an asset or as an expense?
  - At what point should a bill be paid for the purchase of an item?

ANS: C                   PTS: 1                   OBJ: LO1  
NAT: AACSB correlation: reflective           LOC: Learning Type: Comprehension  
KEY: accounting period issue

9. The issue of deciding when to record a transaction is solved by
- properly classifying the transaction.
  - deciding on a point of recognition.
  - assigning historical cost to the transaction.
  - analyzing the intent of management.

ANS: B                   PTS: 1                   OBJ: LO1  
NAT: AACSB correlation: reflective           LOC: Learning Type: Recall  
KEY: accounting period issue

10. Which of the following is *not* a measurement issue in accounting?
- Valuation
  - Recognition
  - Evaluation
  - Classification

ANS: C                   PTS: 1                   OBJ: LO1  
NAT: AACSB correlation: reflective           LOC: Learning Type: Recall  
KEY: measurement issues

11. The cost principle relates most closely to the
- recognition point.
  - recognition issue.

- c. valuation issue.
- d. classification issue.

ANS: C                      PTS: 1                      OBJ: LO1  
NAT: AACSB correlation: reflective                      LOC: Learning Type: Recall  
KEY: measurement issues

12. Which of the following business events is *not* a transaction?
- a. Signing a contract
  - b. Paying wages
  - c. Receiving goods
  - d. Purchasing a service

ANS: A                      PTS: 1                      OBJ: LO1  
NAT: AACSB correlation: reflective                      LOC: Learning Type: Comprehension  
KEY: business transactions

13. If Accounts Receivable has debit postings of \$29,000, credit postings of \$22,000, and a normal ending balance of \$24,000, which of the following was its beginning balance?
- a. \$31,000 Dr.
  - b. \$17,000 Dr.
  - c. \$17,000 Cr.
  - d. \$31,000 Cr.

ANS: B                      PTS: 1                      OBJ: LO2  
NAT: AACSB correlation: reflective                      LOC: Learning Type: Application  
KEY: bookkeeping

14. To determine the balance of a particular account, one should refer to the
- a. source documents.
  - b. chart of accounts..
  - c. book of original entry.
  - d. ledger

ANS: A                      PTS: 1                      OBJ: LO2  
NAT: AACSB correlation: reflective                      LOC: Learning Type: Recall  
KEY: bookkeeping

15. Which of the following accounts is increased with a debit?
- a. Jim Webb, Capital
  - b. Rent Payable
  - c. Legal Fees Earned
  - d. Jim Webb, Withdrawals

ANS: D                      PTS: 1                      OBJ: LO2  
NAT: AACSB correlation: reflective                      LOC: Learning Type: Comprehension  
KEY: bookkeeping

16. Which of the following accounts is increased with a credit?
- a. Supplies
  - b. Fees Earned
  - c. Supplies Expense
  - d. Jane Garcia, Withdrawals

ANS: B                      PTS: 1                      OBJ: LO2  
NAT: AACSB correlation: reflective                      LOC: Learning Type: Comprehension

KEY: bookkeeping

17. If Accounts Payable has debit postings of \$17,000, credit postings of \$14,000, and a normal ending balance of \$6,000, what was its beginning balance?
- \$9,000 Cr.
  - \$3,000 Cr.
  - \$9,000 Dr.
  - \$3,000 Dr.

ANS: A                      PTS: 1                      OBJ: LO2  
NAT: AACSB correlation: reflective                      LOC: Learning Type: Application  
KEY: bookkeeping

18. Which pair of accounts follows the rules of debit and credit in the same manner?
- Revenue from Services and Equipment
  - Prepaid Rent and Advertising Expense
  - Repair Expense and Notes Payable
  - Owner's Capital and Rent Expense

ANS: B                      PTS: 1                      OBJ: LO2  
NAT: AACSB correlation: reflective                      LOC: Learning Type: Comprehension  
KEY: bookkeeping

19. Which pair of accounts follows the rules of debit and credit in the opposite manner?
- Prepaid Insurance and Owner's Withdrawals
  - Advertising Expense and Land
  - Owner's Withdrawals and Medical Fees Earned
  - Interest Payable and Owner's Capital

ANS: C                      PTS: 1                      OBJ: LO2  
NAT: AACSB correlation: reflective                      LOC: Learning Type: Comprehension  
KEY: bookkeeping

20. Which of the following accounts has a normal credit balance?
- Owner's Withdrawals
  - Automotive Equipment
  - Advertising Fees Earned
  - Interest Expense

ANS: C                      PTS: 1                      OBJ: LO2  
NAT: AACSB correlation: reflective                      LOC: Learning Type: Comprehension  
KEY: bookkeeping

21. Which of the following accounts has a normal debit balance?
- Owner's Withdrawals
  - Owner's Capital
  - Unearned Fees
  - Wages Payable

ANS: A                      PTS: 1                      OBJ: LO2  
NAT: AACSB correlation: reflective                      LOC: Learning Type: Comprehension  
KEY: bookkeeping

22. Which of the following accounts has a normal debit balance?
- Art Fees Earned

- b. Notes Payable
- c. Prepaid Insurance
- d. Unearned Art Fees

ANS: C                      PTS: 1                      OBJ: LO2  
NAT: AACSB correlation: reflective                      LOC: Learning Type: Comprehension  
KEY: bookkeeping

23. Which of the following accounts has a normal credit balance?

- a. Accounts Receivable
- b. Owner's Capital
- c. Wages Expense
- d. Owner's Withdrawals

ANS: B                      PTS: 1                      OBJ: LO2  
NAT: AACSB correlation: reflective                      LOC: Learning Type: Comprehension  
KEY: bookkeeping

24. Which of the following accounts has a normal debit balance?

- a. Wages Payable
- b. Fees Earned
- c. Rent Expense
- d. Owner's Capital

ANS: C                      PTS: 1                      OBJ: LO2  
NAT: AACSB correlation: reflective                      LOC: Learning Type: Comprehension  
KEY: bookkeeping

25. Which of the following accounts is decreased with a debit?

- a. Notes Payable
- b. Cash
- c. Interest Expense
- d. Owner's Withdrawals

ANS: A                      PTS: 1                      OBJ: LO2  
NAT: AACSB correlation: reflective                      LOC: Learning Type: Comprehension  
KEY: bookkeeping

26. Which of the following accounts is decreased with a credit?

- a. Advertising Fees Earned
- b. Insurance Expense
- c. Owner's Capital
- d. Unearned Revenue

ANS: B                      PTS: 1                      OBJ: LO2  
NAT: AACSB correlation: reflective                      LOC: Learning Type: Comprehension  
KEY: bookkeeping

27. When collection is made on Accounts Receivable,

- a. owner's equity increases.
- b. total assets decrease.
- c. total assets remain the same.
- d. total assets increase.

ANS: C                      PTS: 1                      OBJ: LO3                      NAT: AACSB correlation: analytic  
LOC: Learning Type: Comprehension                      KEY: bookkeeping

28. If office equipment is sold at cost in exchange for a promissory note,
- total liabilities increase.
  - total liabilities and owner's equity decrease.
  - total assets decrease.
  - total assets remain the same.

ANS: D                    PTS: 1                    OBJ: LO3                    NAT: AACSB correlation: analytic  
LOC: Learning Type: Comprehension                    KEY: bookkeeping

29. The withdrawal of cash by the owner will
- decrease net income..
  - increase liabilities.
  - not affect total assets
  - decrease owner's equity.

ANS: D                    PTS: 1                    OBJ: LO3                    NAT: AACSB correlation: analytic  
LOC: Learning Type: Comprehension                    KEY: bookkeeping

30. Payment on a portion of Accounts Payable will
- not affect owner's equity.
  - decrease net income.
  - increase total liabilities.
  - not affect total assets.

ANS: A                    PTS: 1                    OBJ: LO3                    NAT: AACSB correlation: analytic  
LOC: Learning Type: Comprehension                    KEY: bookkeeping

31. A transaction in which six months' rent is paid in advance. Which of the following journal entries records the transaction?
- Prepaid Rent – Debit; Cash – Credit
  - Rent Receivable – Debit; Cash – Credit
  - Rent Revenue – Debit; Cash – Credit
  - Rent Expense– Debit; Cash – Credit

ANS: A                    PTS: 1                    OBJ: LO3                    NAT: AACSB correlation: analytic  
LOC: Learning Type: Comprehension                    KEY: bookkeeping

32. Which of the following events does *not* require a journal entry?
- Purchase of a one-year insurance policy
  - Agreement to perform a service at a future date
  - Performance of a service agreed to at a past date
  - Payment for a service performed previously

ANS: B                    PTS: 1                    OBJ: LO1

## SHORT ANSWER

- Use this journal entry to answer the following question.

Nov. 16   Accounts Payable  
          Cash

685

685

Recorded payment of a liability

Explain how the above journal entry relates to the measurement issues of (a) recognition, (b) valuation, and (c) classification.

ANS:

- a. The transaction occurred and was recognized on November 16.
- b. A valuation of \$685 was placed on the transaction.
- c. The accounts involved were determined to be (classified as) Accounts Payable and Cash.

PTS: 1                   OBJ: LO1                   NAT: AACSB correlation: reflective  
LOC: Learning Type: Comprehension   KEY: measurement issues

2. Explain why the dollar amount of total owner's equity probably will not equal the dollar amount that would remain if all the assets were sold and all the liabilities were then settled.

ANS:

The valuation of assets on the balance sheet is based primarily on historical cost, not on liquidation value. The proceeds from the sale of assets most likely would differ from the amount originally paid.

PTS: 1                   OBJ: LO1                   NAT: AACSB correlation: reflective  
LOC: Learning Type: Critical Thinking   KEY: measurement issues

3. Discuss the difference between business events that are transactions and those that are not. Why is the distinction important?

ANS:

Business events become transactions and are recorded when title passes from the seller to the buyer or, in the case of services, when the service is performed. The distinction is important because the recording of a transaction will have an effect on the financial position of the business.

PTS: 1                   OBJ: LO1                   NAT: AACSB correlation: reflective  
LOC: Learning Type: Comprehension   KEY: business transactions

4. For each item below, indicate whether a debit or a credit applies.

- a. Decrease in Accounts Payable
- b. Decrease in Land
- c. Increase in Owner's Capital
- d. Increase in Unearned Revenue
- e. Decrease in Interest Payable
- f. Increase in Prepaid Insurance
- g. Increase in Wages Expense
- h. Decrease in Art Supplies
- i. Increase in Advertising Fees Earned

ANS:

- a. Debit
- b. Credit
- c. Credit
- d. Credit
- e. Debit

- f. Debit
- g. Debit
- h. Credit
- i. Credit

PTS: 1                    OBJ: LO2                    NAT: AACSB correlation: reflective

18. What two purposes are served by using the Post. Ref. columns of a journal and ledger?

ANS:

The Post. Ref. columns provide cross-referencing between the journal and the ledger. That is, one can determine from what journal page an item was posted and to which account it was posted in the ledger. One also can more easily determine (by use of the Post. Ref. column) the line item posted from the journal.

19. Briefly explain the difference between Unearned Art Fees and Art Fees Earned.

ANS:

Unearned Art Fees appears on the balance sheet as a liability, and represents an obligation to earn the payment that was received in advance. Art Fees Earned appears on the income statement as revenue, based on services rendered or goods delivered.

20. Use the following descriptive phrases to determine the account name that would be used for each. In addition, classify the account as an asset (A) , liability (L), owner's equity (OE), revenue (R), or expense (E).
- Amount due to creditor for merchandise purchased
  - Coins and currency
  - Property to be used in the business
  - An amount taken from the business by the owner.
  - Income recorded for performance of legal services
  - Amount due to bank for loan to purchase building
  - Stationery, pencils, etc., purchased but not yet used
  - Stationery, pencils, etc., that have been consumed (used)
  - An insurance premium paid covering the next two years
  - Representation of owner investments in a business

ANS:

- Accounts Payable (L)
- Cash (A)
- Land (A)
- Owner's Withdrawals (OE)
- Legal Fees Earned (R)
- Mortgage Payable (L)
- Office Supplies (A)
- Office Supplies Expense (E)
- Prepaid Insurance (A)
- Owner's Capital (OE)

21. Briefly discuss the differences between Prepaid Insurance and Insurance Expense.

ANS:

Prepaid Insurance appears on the balance sheet as an asset and represents unexpired insurance coverage. Insurance Expense appears on the income statement and represents insurance that has expired.

PTS: 1                      OBJ: SO6                      NAT: AACSB correlation: reflective  
LOC: Learning Type: Comprehension                      KEY: assets

22. Amalgamated Campus Stores, Inc. (ACS) employed student representatives to market grooming aids, casual clothes, and other such products on college campuses. The representatives organized parties at which they displayed samples of all the products. Students who bought products paid the representative, who in turn ordered the products and paid ACS for them. When the products arrived, the student representatives delivered them to the buyers. The representatives paid ACS less than they charged the buyers. The difference represented the earnings of the representatives, who were not employees of ACS. Wall Street investors admired ACS because the company had enjoyed several years of rapid growth in sales and earnings.

Last year, the president of ACS predicted further increases in sales of 30 percent. By December, however, it was apparent that the forecasted sales goals would not be met. So during the last two weeks of December, ACS shipped \$23 million of merchandise to the sales representatives to be held for future sales parties. The company billed the student representatives and recorded the shipments as sales. In this way, ACS was able to meet its sales goal for the year.

Were these merchandise shipments properly recorded as sales?

ANS:

The shipments were improperly recorded as sales. The goods had not been ordered by or sold to actual customers, and the student representatives had the right to return all the products unconditionally. In this type of arrangement, to report shipments as legitimate sales is certainly unethical and can be, as in this case, illegal when the intent is to deceive. It may turn out that most of the \$23 million of products will be returned during January and February.

23. Using the following transactions, calculate (A) the ending balance of Cash, (B) the ending balance of Accounts Receivable, (C) total liabilities, and (D) net income for the period. For parts a and b, indicate whether each balance is debit or credit.
- Opened business by investing \$20,000 in cash.
  - Billed customers for services rendered, \$4,000.
  - Paid for six months' subscription in advance, \$1,000.
  - Received advertising bill, to be paid next week, \$200.
  - Withdrawals of \$1,600 were made by the owner.
  - Received \$3,000 from customers billed in b.
  - Paid half of advertising bill.
  - Received \$400 in advance of performing a service.

ANS:

- \$20,700 debit ( $\$20,000 + \$3,000 + \$400 - \$1,000 - \$1,600 - \$100$ )
- \$1,000 debit ( $\$4,000 - \$3,000$ )
- \$500 ( $\$200 + \$400 - \$100$ )
- \$3,800 ( $\$4,000 - \$200$ )

24. Using the following transactions, calculate (A) net income for the period, as well as the ending balances of (B) total assets, (C) total liabilities, and (D) Cash. For part d, indicate whether the balance is debit or credit.
- Opened business by investing \$36,000 in cash.
  - Paid one year's insurance in advance, \$2,400.
  - Billed customers for services rendered, \$6,000.
  - Received utility bill, to be paid next month, \$400.
  - Received \$800 in advance of performing a service.
  - Received \$4,400 from customers billed in c.
  - Paid \$300 on the utility bill of d.
  - Withdrawals of \$2,000 were made by the owner.

ANS:

- a. \$5,600 (\$6,000 – \$400)
- b. \$40,500 (\$36,000 + \$6,000 + \$800 – \$300 – \$2,000)
- c. \$900 (\$400 + \$800 – \$300)
- d. \$36,500 debit (\$36,000 + \$800 + \$4,400 – \$2,400 – \$300 – \$2,000)
