

Chapter 01: Introduction to Taxation

1. The FICA tax (Medicare component) on wages is *progressive* since the tax due increases as wages increase.

- a. True
- b. False

ANSWER: False

RATIONALE: The FICA tax (Medicare component) is *proportional* because the rate is constant regardless of the wages earned.

31. Tomas owns a sole proprietorship, and Lucy is the sole shareholder of a C corporation. In the current year both businesses make a net profit of \$60,000. Neither business distributes any funds to the owners in the year. For the current year, Tomas must report \$60,000 of income on his individual tax return, but Lucy is not required to report any income from the corporation on her individual tax return.

- a. True
- b. False

ANSWER: True

RATIONALE: Proprietorship profits flow through to the owner and are reported on the owner's individual income tax return. It does not matter how much of the profit is withdrawn from the proprietorship. Thus, Tomas must report the net profit of \$60,000 on his Form 1040 (Schedule C). Shareholders are required to report income from a C corporation only to the extent of dividends received. Consequently, Lucy has no income to report from the corporation for the current year.

POINTS: 1

DIFFICULTY: Easy

QUESTION TYPE: True / False

32. Carol and Candace are equal partners in Peach Partnership. In the current year, Peach had a net profit of \$75,000 (\$250,000 gross income – \$175,000 operating expenses) and distributed \$25,000 to each partner. Peach must pay tax on \$75,000 of income.

Chapter 01: Introduction to Taxation

- a. True
- b. False

ANSWER: False

RATIONALE: A partnership is not a taxpaying entity. Its profit (loss) and separate items flow through to the partners. The partnership's Form 1065 reports net profit of \$75,000. Carol and Candace both receive a Schedule K-1 reporting net profit of \$37,500. Each partner reports net profit of \$37,500 on her own return (Form 1040).

POINTS: 1

33. Rajib is the sole shareholder of Robin Corporation, a calendar year S corporation. In the current year, Robin earned net profit of \$350,000 (\$520,000 gross income – \$170,000 operating expenses) and distributed \$80,000 to Rajib. Rajib must report Robin Corporation profit of \$350,000 on his Federal income tax return.

- a. True
- b. False

ANSWER: True

RATIONALE: Similar to partnerships, the net profit or loss of an S corporation flows through to the shareholders to be reported on their individual tax returns. Robin's net income of \$350,000 is allocated entirely to Rajib, as the sole shareholder, and Rajib reports the \$350,000 of income on his Federal income tax return, regardless of how much of the income was withdrawn from the S corporation.

34. Donald owns a 45% interest in a partnership that earned \$130,000 in the current year. He also owns 45% of the stock in a C corporation that earned \$130,000 during the year. Donald received \$20,000 in distributions from each of the two entities during the year. With respect to this information, Donald must report \$78,500 of income on his individual income tax return for the year.

- a. True

Chapter 01: Introduction to Taxation

b. False

ANSWER: True

RATIONALE: On his individual income tax return for the year, Donald must report his \$58,500 ($\$130,000 \times 45\%$) share of the partnership income plus the \$20,000 of dividends he received from the C corporation, or \$78,500 of total income. Partnership income is taxed to a partner in the year earned, and distributions do not affect a partner's share of income. A C corporation's income is taxed to a shareholder only when distributed as dividends and to the extent thereof.

35. Quail Corporation is a C corporation with net income of \$125,000 during the current year. If Quail paid dividends of \$25,000 to its shareholders, the corporation must pay tax on \$100,000 of net income. Shareholders must report the \$25,000 of dividends as income.

a. True

b. False

ANSWER: False

RATIONALE: Quail Corporation must pay tax on the \$125,000 of corporate net income. Dividends paid are not deductible by the corporation. Shareholders must pay tax on the \$25,000 of dividends received from the corporation. This is commonly referred to as double taxation.

POINTS: 1

37. Don, the sole shareholder of Pastel Corporation (a C corporation), has the corporation pay him a salary of \$600,000 in the current year. The Tax Court has held that \$200,000 represents unreasonable compensation. Don must report a salary of \$400,000 and a dividend of \$200,000 on his individual tax return.

- a. True
- b. False

ANSWER: True

RATIONALE: To the extent a salary paid to a shareholder/employee is considered reasonable, the corporation is allowed a salary deduction, which reduces corporate taxable income. To the extent a salary payment is not considered reasonable, the payment is treated as a dividend, which does not reduce corporate taxable income. The shareholder/employee is taxed on both salary (\$400,000) and dividends (\$200,000). (Pastel's taxable income increases by \$200,000, the amount of the unreasonable compensation paid to Don.)

42. Employment taxes apply to all entity forms of operating a business. As a result, employment taxes are a neutral factor in selecting the most tax effective form of operating a business.

- a. True
- b. False

ANSWER: False
RATIONALE: Employment taxes applicable to payments to owners of businesses are not neutral in the selection of a business form. The self-employment tax applies to the net earnings of a proprietorship and, often, to partnership allocations of income to a partner. Individuals can deduct one-half of the self-employment tax paid. Conversely, payroll taxes (employer and employee) apply to wages paid to a shareholder-employee of a corporation (regular or S), and the corporation can deduct the employer share of payroll taxes paid. Any analysis of the most tax effective form of operating a business must consider these differences in the treatment of employment taxes.

59. Which, if any, of the following transactions will *increase* a taxing jurisdiction's revenue from the *ad valorem* tax imposed on real estate?
- A resident dies and leaves his farm to his church.
 - A large property owner issues a conservation easement as to some of her land.
 - A tax holiday issued 10 years ago has expired.
 - A bankrupt motel is acquired by the Red Cross and is to be used to provide housing for homeless persons.
 - None of these.

ANSWER: c
RATIONALE: Although a farm was probably subject to reduced valuation (due to its agricultural use), it will now be fully exempt since it is owned by a church (choice a.). Property that is subject to a conservation easement is usually appraised at a lower value (choice b.). The expiration of a tax holiday means that the property involved can now be taxed (choice c.). The motel has been converted from business property to exempt charitable use (choice d.).

60. Which, if any, of the following transactions will *decrease* a taxing jurisdiction's *ad valorem* tax revenue imposed on real estate?

- a. A tax holiday is granted to an out-of-state business that is searching for a new factory site.
- b. An abandoned church is converted to a restaurant.
- c. A public school is razed and turned into a city park.
- d. A local university sells a dormitory that will be converted for use as an apartment building.
- e. None of these.

ANSWER: a

RATIONALE: Choice a. has an effect since the tax holiday was granted. Choice b. will increase taxes as the church was abandoned and previously exempt. Choice c. converts one tax-exempt property (i.e., school) into another (i.e., public park). Choice d. probably places the building on the tax rolls because it is no longer owned by a tax-exempt institution.

65. Taxes levied by *all* states include:

- a. Tobacco excise tax.
- b. Individual income tax.
- c. Inheritance tax.
- d. General sales tax.
- e. None of these.

ANSWER: a

RATIONALE: All states impose a tobacco excise tax (choice a.). Most states impose individual income taxes (choice b.) and general sales taxes (choice d.), and only some states impose inheritance taxes (choice c.).

POINTS: 1

DIFFICULTY: Moderate

QUESTION TYPE: Multiple Choice

66. A use tax is imposed by:

- a. The Federal government and all states.
- b. The Federal government and a majority of the states.
- c. All states and not the Federal government.
- d. Most of the states and not the Federal government.
- e. None of these.

ANSWER: d

RATIONALE: A use tax is a complement to a general sales tax. Consequently, it is imposed by most states because only a few states do not have a general sales tax. At this point, the Federal government has no general sales tax.

POINTS: 1

67. Burt and Lisa are married and live in a common law state. Burt wants to make gifts to their four children in 2017. What is the maximum amount of the annual exclusion they will be allowed for these gifts?

- a. \$14,000.
- b. \$28,000.
- c. \$56,000.
- d. \$112,000.
- e. None of these.

ANSWER: d

RATIONALE: 4 (number of donees) \times \$14,000 (annual exclusion) \times 2 (number of donors) = \$112,000. It is assumed that Lisa will make the election to split the gifts.

POINTS: 1

DIFFICULTY: Moderate

68. Property can be transferred within the family group by gift or at death. One motivation for preferring the gift approach is:

- To take advantage of the higher unified transfer tax credit available under the gift tax.
- To avoid a future decline in value of the property transferred.
- To take advantage of the per donee annual exclusion.
- To shift income to higher bracket donees.
- None of these.

ANSWER: c

RATIONALE: The per donee annual exclusion is only available for gift tax purposes (choice c.). Ideally, gifts should involve property that is expected to *appreciate* in value (choice b.). A higher unified tax credit is not available for gift tax purposes (choice a.). Usually the donor is trying to shift future income to *lower* bracket donees (choice d.).

69. Indicate which, if any, statement is *incorrect*. State income taxes:

- Can piggyback to the Federal version.
- Cannot apply to visiting nonresidents.
- Can decouple from the Federal version.
- Can provide occasional amnesty programs.
- None of these.

ANSWER: b

RATIONALE: Many states piggyback to the Federal system (choice a.). Some states, due to revenue shortfalls, have decoupled from various provisions of the Federal version (choice c.). The "jock tax," although much criticized, is very much in being (choice b.). Some states have had more than one amnesty period (choice d.).

71. A characteristic of FICA is that:
- It does not apply when one spouse works for the other spouse.
 - It is imposed only on the employer.
 - It provides a modest source of income in the event of loss of employment.
 - It is administered by both state and Federal governments.
 - None of these.

ANSWER: e
RATIONALE: FICA is imposed on *both* the employer and the employee (choice b.). Spouses who work for each other are not exempt from the tax (choice a.). Its objective is retirement income, not loss of employment (choice c.). It is administered only by the Federal government (choice d.).
POINTS: 1

- a. Political considerations.
- b. Economic and social considerations.
- c. Promoting administrative feasibility.
- d. Encouragement of small business.
- e. None of these.

ANSWER: b

RATIONALE: Although it may be “good politics” to promote measures that ease the problem of global warming (choice a.), the real justification is economic (curtail dependence on foreign oil) and social (reduce pollution)—choice b. The encouragement of small business (choice d.) is a byproduct of these conservation provisions, but is not their justification.

83. Several years ago, Logan purchased extra grazing land for his ranch at a cost of \$240,000. In 2017, the land is condemned by the state for development as a highway maintenance depot. Under the condemnation award, Logan receives \$600,000 for the land. Within the same year, he replaces the property with other grazing land. What is Logan's tax situation if the replacement land cost:

- a. \$210,000?
- b. \$360,000?
- c. \$630,000?
- d. Why?

ANSWER:

- a. The full realized gain of \$360,000 [$\$600,000$ (condemnation proceeds) – $\$240,000$ (cost of land)] must be recognized, as only \$210,000 was reinvested. The condemnation proceeds of \$600,000 exceed the amount reinvested by more than \$360,000.
- b. As only \$360,000 was reinvested in replacement property, \$240,000 ($\$600,000$ – $\$360,000$) of the gain must be recognized.
- c. As the full \$600,000 was reinvested, no realized gain need be recognized.
- d. If some of the gain is not reinvested, consistent with the wherewithal to pay concept, there exists the ability to pay the tax. Thus, gain is recognized to the extent the proceeds are not reinvested.

84. Paige is the sole shareholder of Citron Corporation. During the year, Paige leases a building to Citron for a monthly rental of \$80,000. If the fair rental value of the building is \$60,000, what are the income tax consequences to the parties involved?

ANSWER: The rent charged by Paige is not “arms length”; as such, Citron Corporation’s rent deduction is \$60,000 (not \$80,000). The \$20,000 difference is a nondeductible dividend distribution. For Paige, the change merely requires reclassification. Instead of \$80,000 of rent income, she has \$60,000 of rent income and \$20,000 of dividend income.

85. In 1986, Roy leased real estate to Drab Corporation for 20 years. Drab Corporation made significant capital improvements to the property. In 2006, Drab decides not to renew the lease and vacates the property. At that time, the value of the improvements is \$800,000. Roy sells the real estate in 2017 for \$1,200,000 of which \$900,000 is attributable to the improvements. When is Roy taxed on the improvements made by Drab Corporation?

ANSWER: Roy is not subject to taxation on the improvements until he disposes of the property (i.e., 2017). After a controversial Supreme Court decision years ago, Congress clarified the tax law to make it more consistent with the wherewithal to pay concept.

86. Due to the population change, the Goose Creek School District has decided to close one of its high schools. Since it has no further need of the property, the school is listed for sale. The two bids it receives are as follows:

United Methodist Church	\$1,700,000
Planet Motors	1,600,000

The United Methodist Church would use the property to establish a sectarian middle school. Planet, a well-known car dealership, would revamp the property and operate it as a branch location.

If you were a member of the School District board, what factors would you consider in evaluating the two bids?

ANSWER: Although the bid from the United Methodist Church is higher, several other factors need to be considered. Does, for example, Goose Creek School district exempt property owned by churches from its *ad valorem* taxes? If so, losing this property from the tax base could prove very costly over the long run. Also, it is probable that income-producing property (such as a car dealership) would be taxed at a higher rate than that owned by a nonprofit organization (a school operated by a church). This assumes, of course, that the school would be taxed at all. The auto dealership also would generate sales tax.

87. Morgan inherits her father's personal residence including all of the furnishings. She plans to add a swimming pool and sauna to the property and rent it as a furnished house. What are some of the *ad valorem* property tax problems Morgan can anticipate?

ANSWER: The real estate taxes probably will increase for several reasons. The capital improvements and the conversion from residential to rental will trigger the increase. Furthermore, the furnishings may generate an *ad valorem* tax on personalty. (Depending on applicable law, furniture might not be subject to tax unless used for business purposes—such as in this case.)

90. State and local governments are sometimes forced to find ways to generate additional revenue. Comment on the pros and cons of the following procedures:

- a. Decouple what would be part of the piggyback format of the state income tax.
- b. Tax amnesty provisions.
- c. Internet shaming.

ANSWER:

- a. The decoupling process is easily accomplished as to new Federal tax changes that have never taken effect at the state level. Taxpayers are not apt to miss what they never have enjoyed.
- b. Tax amnesty provisions generate considerable revenue. It also unmasks many taxpayers who have not previously paid taxes. Now that the taxing jurisdiction is aware of their existence, they will tend to pay taxes in the future.
- c. By use of a public Web site, the taxing authority posts the names of those taxpayers that are delinquent as to various taxes (e.g., sales, income). This public humiliation (or threat of) very often results in compliance.

92. The tax law contains various provisions that encourage home ownership.

- a. On what basis can this objective be justified?
- b. Are there any negative considerations? Explain.

ANSWER:

- a. Home ownership can be justified on economic and social grounds.
- b. Granting tax advantages to persons who are purchasing their homes places the taxpayers who rent at a disadvantage. The result is inequality in treatment.

94. The tax law allows, under certain conditions, deferral of gain recognition for involuntary conversions.

- a. What is the justification for this relief measure?
- b. What happens if the proceeds are not entirely reinvested?

ANSWER:

- a. By recognizing that the taxpayer's relative economic situation has not changed and that he or she lacks the wherewithal to pay a tax, any recognition of realized gain is deferred.
- b. If the proceeds from an involuntary conversion are not fully reinvested in property that is similar or related in service or use, recognized gain results. Such recognized gain cannot exceed realized gain and will be limited to the amount of the proceeds not reinvested. Recognition is based on the notion that the taxpayer now has the wherewithal to pay the tax that results.

110. Juanita owns 60% of the stock in a C corporation that had a profit of \$200,000 in the current year. Carlos owns a 60% interest in a partnership that had a profit of \$200,000 during the year. The corporation distributed \$45,000 to Juanita, and the partnership distributed \$45,000 to Carlos. With respect to this information, which of the following statements is *incorrect*?

- a. Juanita must report \$120,000 of income from the corporation.
- b. The corporation must pay corporate tax on \$200,000 of income.
- c. Carlos must report \$120,000 of income from the partnership.
- d. The partnership is not subject to a Federal entity-level income tax.
- e. None of the above.

ANSWER: a

RATIONALE: Shareholders of C corporations report the dividends received from the corporation during the year. Thus, Juanita must report \$45,000 of income from the corporation. The other statements are correct.

111. Bjorn owns a 60% interest in an S corporation that earned \$150,000 in the current year. He also owns 60% of the stock in a C corporation that earned \$150,000 during the year. The S corporation distributed \$30,000 to Bjorn and the C corporation paid dividends of \$30,000 to Bjorn. How much income must Bjorn report from these businesses?

- a. \$0 income from the S corporation and \$30,000 income from the C corporation.
- b. \$30,000 income from the S corporation and \$30,000 of dividend income from the C corporation.
- c. \$90,000 income from the S corporation and \$0 income from the C corporation.

Chapter 01: Introduction to Taxation

- d. \$90,000 income from the S corporation and \$30,000 income from the C corporation.
- e. None of the above.

ANSWER: d
RATIONALE: Bjorn must report his \$90,000 share ($\$150,000 \times 60\%$) of the S corporation's income on his individual tax return. He will report \$30,000 of dividend income from the C corporation.

112. Rachel is the sole member of an LLC, and Jordan is the sole shareholder of a C corporation. Both businesses were started in the current year, and each business has a long-term capital gain of \$10,000 for the year. Neither business made any distributions during the year. With respect to this information, which of the following statements is correct?

- a. The C corporation receives a preferential tax rate on the LTCG of \$10,000.
- b. The LLC must pay corporate tax on taxable income of \$10,000.
- c. Jordan must report \$10,000 of LTCG on his tax return.
- d. Rachel must report \$10,000 of LTCG on her tax return.
- e. None of the above.

ANSWER: d
RATIONALE: Under the default rules of the check-the-box Regulations, a single-member LLC is treated as a proprietorship for Federal tax purposes. As such, Rachel reports the \$10,000 LTCG on her tax return (Form 1040). A C corporation does not receive preferential tax rate treatment on LTCG (option a.). The LLC is ignored for Federal income tax purposes and its income, gains, deductions, and losses are reported as a proprietorship, not as a corporation (option b.). A C corporation is a separate taxpaying entity (Form 1120) and income of a C corporation is not taxed to its shareholders until distributed as dividends (option c.).

Chapter 01: Introduction to Taxation

113. Pablo, a sole proprietor, sold stock held as an investment for a \$40,000 long-term capital gain. Pablo's marginal tax rate is 33%. Loon Corporation, a C corporation, sold stock held as an investment for a \$40,000 long-term capital gain. Loon's marginal tax rate is 35%. What tax rates are applicable to these capital gains?

- 15% rate applies to Pablo and 35% rate applies to Loon.
- 15% rate applies to Loon and 33% rate applies to Pablo.
- 35% rate applies to Loon and 33% rate applies to Pablo.
- 15% rate applies to both Pablo and Loon.
- None of the above.

ANSWER: a

RATIONALE: Pablo reports the LTCG on his individual tax return (Form 1040, Schedule D), and it is subject to a maximum tax rate of 15%. Loon reports the LTCG on its corporate return (Form 1120) but the gain does not receive preferential tax rate treatment. Therefore, the LTCG will be taxed at 35%.

114. Lucinda is a 60% shareholder in Rhea Corporation, a calendar year S corporation. During the current year, Rhea Corporation had gross income of \$550,000 and operating expenses of \$380,000. In addition, the corporation sold land that had been held for investment purposes for a short-term capital gain of \$30,000. During the year, Rhea Corporation distributed \$50,000 to Lucinda. With respect to this information, which of the following statements is correct?

- Rhea Corporation will pay tax on taxable income of \$200,000.
- Lucinda reports ordinary income of \$50,000.
- Lucinda reports ordinary income of \$120,000.
- Lucinda reports ordinary income of \$102,000 and a short-term capital gain of \$18,000.
- None of the above.

ANSWER: d

RATIONALE: Rhea Corporation, an S corporation, is not a taxpaying entity (option a.). Its profit (loss) and separate items flow through to the shareholders. The corporation's Form 1120S reports ordinary business income of \$170,000 (\$550,000 income – \$380,000 expenses). The corporation also reports the \$30,000 short-term capital gain as a separately stated item. Lucinda receives a Schedule K-1 reporting ordinary business income of \$102,000 (60% × \$170,000) and separately stated short-term capital gain of \$18,000 (60% × \$30,000), and she will report such income on her own return. The distributions are not taxable for Lucinda but decrease the basis in her Rhea Corporation stock.

115. Flycatcher Corporation, a C corporation, has two equal individual shareholders, Nancy and Pasqual. In the current year, Flycatcher earned \$100,000 net profit and paid a dividend of \$10,000 to each shareholder. Regardless of any tax consequences resulting from their interests in Flycatcher, Nancy is in the 33% marginal tax bracket and Pasqual is in the 15% marginal tax bracket. With respect to the current year, which of the following statements is *incorrect*?

- a. Flycatcher cannot avoid the corporate tax altogether by distributing all \$100,000 of net profit as dividends to the shareholders.
- b. Nancy incurs income tax of \$1,500 on her dividend income.
- c. Pasqual incurs income tax of \$1,500 on his dividend income.
- d. Flycatcher pays corporate tax of \$22,250.
- e. None of the above.

ANSWER: c

RATIONALE: A preferential tax rate of 0% applies to dividend income of individual taxpayers in the lowest two marginal tax brackets (10% or 15%); thus, Pasqual pays income tax of \$0 on his dividend income. A preferential tax rate of 15% applies to dividend income of individual taxpayers in the 33% tax rate brackets; thus, Nancy pays income tax of \$1,500 on her dividend income (option b.). Dividend distributions are not deductible by a corporation, and Flycatcher still incurs corporate tax on \$100,000 even if all profits were distributed to shareholders (option a.). Corporate tax on \$100,000 of taxable income is \$22,250 (option d.).

116. Elk, a C corporation, has \$370,000 operating income and \$290,000 operating expenses during the current year. In addition, Elk has a \$10,000 long-term capital gain and a \$17,000 short-term capital loss. Elk's taxable income is:

- a. \$63,000.
- b. \$73,000.
- c. \$80,000.
- d. \$90,000.

Chapter 01: Introduction to Taxation

e. None of the above.

ANSWER: c

RATIONALE: \$370,000 (operating income) – \$290,000 (operating expenses) + \$10,000 (LTCG) – \$10,000 (STCL) = \$80,000 taxable income. A corporation cannot deduct a net capital loss in the year incurred. The net capital loss (\$7,000) can be carried back three years and offset against net capital gain in the carryback years. If the capital loss is not used in the carryback, it can be carried forward five years. Capital gains of corporations are included in taxable income and are not subject to the favorable rates applicable to individuals.

117. During the current year, Skylark Company had operating income of \$420,000 and operating expenses of \$250,000. In addition, Skylark had a long-term capital loss of \$20,000, and a charitable contribution of \$5,000. How does Toby, the sole owner of Skylark Company, report this information on his individual income tax return under following assumptions?

- Skylark is an LLC, and Toby does not withdraw any funds from the company during the year.
- Skylark is an S corporation, and Toby does not withdraw any funds from the company during the year.
- Skylark is a regular (C) corporation, and Toby does not withdraw any funds from the company during the year.

ANSWER:

- A single-member LLC is taxed as a proprietorship. Consequently, Toby reports the \$170,000 operating profit, \$20,000 long-term capital loss, and \$5,000 charitable contribution on his individual return (Form 1040). The LTCL will be subject to the capital loss limitations applicable to individual taxpayers.
- Income, deductions, gains, and losses of an S corporation flow through to the shareholders. Separately stated items (e.g., LTCL and charitable contribution) retain their character at the shareholder level. Consequently, Toby reports the \$170,000 operating profit, \$20,000 long-term capital loss, and \$5,000 charitable contribution on his individual return (Form 1040). The LTCL will be subject to the capital loss limitations applicable to individual taxpayers.
- Shareholders of a regular (C) corporation report income from the corporation to the extent of dividends received. Therefore, Toby does not report any of Skylark's operating profit, long-term capital loss, or charitable contribution on his individual return. [Skylark Company would report taxable income of \$165,000 (\$170,000

Chapter 01: Introduction to Taxation

operating profit – \$5,000 charitable contribution) on its corporate return (Form 1120). The net capital loss of \$20,000 is not deductible in the current year; rather, the loss is carried back three years and forward five years (as STCL).]

Chapter 01: Introduction to Taxation

119. During the current year, Maroon Company had \$125,000 net income from operations. Belinda, the sole owner of Maroon, is in the 33% marginal tax bracket. Determine the combined tax burden for Maroon and Belinda under the following independent situations. (Ignore any employment taxes.)

- a. Maroon Company is a C corporation and all of its after-tax income is distributed to Belinda.
- b. Maroon Company is a proprietorship and all of its after-tax income is withdrawn by Belinda.
- c. Maroon Company is an S corporation and all of its after-tax income is distributed to Belinda.

ANSWER:

- a. If Maroon Company is a C corporation, the \$125,000 is taxable at the corporate level (Form 1120), resulting in corporate tax of \$32,000 $[(\$50,000 \times 15\%) + (\$25,000 \times 25\%) + (\$25,000 \times 34\%) + (\$25,000 \times 39\%)]$. The after-tax dividend distribution of \$93,000 ($\$125,000 - \$32,000$) to Belinda results in tax of \$13,950 ($\$93,000 \times 15\%$). Total taxes amount to \$45,950 ($\$32,000 + \$13,950$).
- b. If Maroon Company is a proprietorship, there is no entity level Federal income tax. Instead, the income of the proprietorship is reported on Belinda's tax return (Form 1040), resulting in tax of \$41,250 ($\$125,000 \times 33\%$). Belinda's withdrawal of the after-tax income has no income tax consequences.
- c. Income, deductions, gains, and losses of an S corporation flow through to the shareholders. Consequently, Belinda reports the \$125,000 net profit on her individual return (Form 1040), resulting in tax of \$41,250 ($\$125,000 \times 33\%$). Distributions from S corporations are nontaxable to the shareholder (to the extent of stock basis).
