

World Regions in Global Context, 4e (Marston, et al.)
Chapter 1 World Regions in Global Context

1) De jure territories have boundaries defined this way.

- A) based in economic strength
- B) based in physical geographic characteristics
- C) legally recognized
- D) based in culture or ethnicity
- E) temporary, as during war or treaty negotiations

Answer: C

Diff: 4

Section: Culture and Politics

Geography Std: 3

Bloom's Taxonomy: Comprehension

2) Which of the following is an example of a supranational organization?

- A) ASEAN
- B) NAFTA
- C) European Union
- D) all of these
- E) none of these

Answer: D

Diff: 1

Section: Culture and Politics

Geography Std: 13

Bloom's Taxonomy: Knowledge

3) Irredentism is based on the assertion by the government of a country that a _____ living _____ its borders belongs to it historically and culturally.

- A) majority population, inside
- B) minority population, outside
- C) majority population, outside
- D) minority population, inside
- E) None of these adequately describes the relationships between majority and minority populations.

Answer: B

Diff: 4

Section: Culture and Politics

Geography Std: 13

Bloom's Taxonomy: Comprehension

4) Which of the following can the Theory of Plate Tectonics not explain?

- A) why earthquakes occur
- B) the locations and origins of volcanoes
- C) the evident relocation of major landmasses in the past
- D) the locations and origins of mountains
- E) atmospheric circulation

Answer: E

Diff: 3

Section: Environment and Society

Geography Std: 7

Bloom's Taxonomy: Comprehension

5) Diaspora is defined as the spatial _____ of a previously homogeneous group.

- A) isolation
- B) consolidation
- C) dispersion
- D) concentration
- E) none of the above

Answer: C

Diff: 3

Section: Culture and Politics

Geography Std: 9

Bloom's Taxonomy: Knowledge

6) What type of precipitation is associated with mountainous areas?

- A) orographic
- B) convectional
- C) tropical
- D) latitudinal
- E) neostatic

Answer: A

Diff: 2

Section: Environment and Society

Geography Std: 7

Bloom's Taxonomy: Comprehension

7) The current global population is approximately:

- A) 6 billion
- B) 6 million
- C) 600 billion
- D) 600 million
- E) 60 billion

Answer: A

Diff: 1

Section: History, Economy, and Demographic Change

Geography Std: 9

Bloom's Taxonomy: Knowledge

8) Almost all of the world's inhabitants are living on this percentage of the total land surface.

- A) 85%
- B) 50%
- C) 25%
- D) 10%
- E) 4%

Answer: D

Diff: 2

Section: History, Economy, and Demographic Change

Geography Std: 9

Bloom's Taxonomy: Knowledge

9) Which of the following mountain ranges was uplifted when India collided with Asia?

- A) Rocky Mountains
- B) Himalayan Mountains
- C) Andes Mountains
- D) Ural Mountains
- E) none of the above

Answer: B

Diff: 2

Section: Environment and Society

Geography Std: 7

Bloom's Taxonomy: Comprehension

10) Where do most of the world's Basques live?

- A) France and Spain
- B) France and Germany
- C) Argentina and Brazil
- D) Laos and Vietnam
- E) Canada and the United States

Answer: A

Diff: 3

Section: Culture and Politics

Geography Std: 10

Bloom's Taxonomy: Knowledge

11) This is the only country on the African continent with the telecommunications capacity to achieve a significant degree of Internet connectivity in the near future.

- A) Nigeria
- B) Egypt
- C) South Africa
- D) Democratic Republic of the Congo
- E) Ghana

Answer: C

Diff: 5

Section: History, Economy, and Demographic Change

Geography Std: 11

Bloom's Taxonomy: Comprehension

12) Which statement best describes the economic concept of a commodity chain?

- A) reflects the inequality basic to the world economic system
- B) applies to almost every mass-marketed manufactured product
- C) depends on global connections to function
- D) all of these
- E) none of these

Answer: D

Diff: 5

Section: Environment and Society

Geography Std: 11

Bloom's Taxonomy: Comprehension

13) Which of the following is best described by the statement “...meets the needs of the present without compromising the ability of future generations to meet their own needs”?

- A) sustainable development
- B) neo-liberal policies
- C) social production of nature
- D) global stratification
- E) none of these

Answer: A

Diff: 4

Section: Environment and Society

Geography Std: 14

Bloom's Taxonomy: Comprehension

14) This is the first phase of the Demographic Transition.

- A) high birth rates and high death rates
- B) high birth rates and low death rates
- C) low birth rates and high death rates
- D) low birth rates and low death rates
- E) None of these adequately describes the first phase of the Demographic Transition.

Answer: A

Diff: 2

Section: History, Economy, and Demographic Change

Geography Std: 9

Bloom's Taxonomy: Knowledge

15) The final phase of the Demographic Transition is:

- A) high birth rates and high death rates
- B) high birth rates and low death rates
- C) low birth rates and high death rates
- D) low birth rates and low death rates
- E) None of these adequately describes the final phase of the Demographic Transition.

Answer: D

Diff: 2

Section: History, Economy, and Demographic Change

Bloom's Taxonomy: Knowledge

16) The conversion of raw materials into finished products (manufacturing) constitutes this sector of employment.

- A) primary
- B) secondary
- C) tertiary
- D) quaternary
- E) none of these

Answer: B

Diff: 2

Section: History, Economy, and Demographic Change

Geography Std: 11

Bloom's Taxonomy: Knowledge

17) This is believed to be one of the causes of global warming and climate change associated with it.

- A) the burning of fossil fuels
- B) the use of radioactive elements for energy and as weapons
- C) overuse of limited fresh water resources
- D) the result of mass extinctions as human civilization spreads
- E) changes in the Sun's energy

Answer: A

Diff: 2

Section: Environment and Society

Geography Std: 13

Bloom's Taxonomy: Comprehension

18) How do commodity chains begin?

- A) the extraction and production of raw materials
- B) the manufacture and export of commodities
- C) high wage, semi-skilled assembly of consumer products
- D) the delivery and consumption of finished commodities
- E) none of these

Answer: A

Answers: 69) B 70) B 71) D 72) A 73) C 74) D 75) A

76) Discuss the pattern of religions. What are the major global religions? Where are these religions clustered?

77) What is atmospheric circulation? Why is it important? What is the difference between weather and climate?

78) What is global climate change? What evidence exists that supports this theory? What are the possible impacts of global climate change on human populations?

79) What and where are the major climate zones around the world? List at least two general characteristics of each of these climate regions.

80) Discuss plate tectonic theory. What was the origin of this theory? What are lithospheric plates? In what ways do these plates move?

81) What is meant by the phrase "postindustrial global economy"? What is globalization? Discuss at least three key factors of globalization.

82) Describe the global distribution of the human population. Discuss global trends in birth rates and death rates and life expectancies.

83) Discuss the concept of sustainability. How has the commoditization of nature influenced human-environment relationships in the last two centuries? What does this suggest for the possibility of future sustainable development?

84) How are levels of economic development measured around the world? What is the HDI? What variables are including when calculating the HDI index?

85) What is meant by the term "global geography"? How does the global geography framework compare and contrast to a regional geography approach?
